The Gospels In Their Original Meaning:

Biblical Interpretation in Early Christian Gospels Thomas R. Hatina, 2020-03-19 This volume is the fourth in a set of volumes which together explore current approaches to the study of scripture in the Gospels Thomas R Hatina's latest edited collection begins with an introduction surveying methodological approaches used in the study of how scriptural allusions quotations and references function in John with subsequent essays grouped into four categories that represent the breadth of current interpretive interests The contributors begin with historical critical approaches before moving to rhetorical and linguistic approaches literary approaches and finally social memory approaches Each study contains not only recent research on the function of scripture in John but also an explanation of the approach taken making the collection an ideal resource for both scholars and students who are interested in the complexities of interpretation in John's context as well as our own

The Theology of the Gospel of Mark William Telford, 1999-06-17 This 1999 book presents the reader with a comprehensive view of the theology underlying the first narrative account of the life of Jesus In Chapter 1 Dr Telford introduces the background of the text and its general message attempting briefly to place the Gospel and therefore its theology in its historical setting In the second chapter he describes and analyses the Gospel's theology again from an historical perspective and with particular regard to its original context In the third chapter Telford goes on to examine the Gospel in relation to other relevant writings of the New Testament Briefly reviewing this larger corpus and highlighting parallels and contrasts where appropriate he seeks to locate the Gospel's theology in its wider canonical context The fourth and final chapter ranges even further afield commenting on the Gospel's history of interpretation and on its significance in the contemporary context

A Handbook on the Jewish Roots of the Gospels Craig Evans, David Mishkin, 2022 A survey of the historical theological and practical issues of reading the Gospels as Jewish literature Includes over thirty articles by well known experts on current topics relating to Jesus and the Gospels in light of new developments in archaeology ancient texts and Jewish society in late antiquity

The Prophetic Vision and the Real Jesus Adrian M. Leske, 2017-10-06 Using the method of intertextuality Adrian Leske has traced the growth of the prophetic vision from Amos to the Exile demonstrating how after the Exile the dominant influence on that vision down to the time of Jesus is the positive and new message of Deutero Isaiah With opposition from the Zadokite priesthood and exploitation from foreign rulers the prophetic and Levite communities find refuge in Upper Galilee and surrounding areas Using the Gospel of Matthew the most Jewish of the Gospels Leske demonstrates how that vision impacted the teaching of Jesus to these communities and how he perceived his mission as the Servant Son of man Understanding this prophetic vision and the Jewish nature of Matthew's Gospel brings new insights to Matthean Christology as well as the authorship and date of that Gospel in relation to the other Gospels

Oral Tradition and the Gospels Barry Henaut, 1993-01-05 The problem of

oral tradition is well known for without some theory of this medium no history of Jesus would be possible This study examines Mark 4 1 34 in the light of three distinctive models of orality Rudolf Bultmann's form critical method B Gerhardsson's Memory and Manuscript theory and the recent contribution of W Kelber The form critically separate units in the text allegory parables and aphorisms are examined on the basis of their attestation in various documents Mark Q Thomas to determine whether independent versions of these sayings can be identified and what they tell us about the oral phase and Jesus This analysis suggests that the criteria for authenticity of distinctiveness and multiple attestation need to be re-examined in light of the folkloric understanding of orality

The Gospels in Their Original Meaning Lawrence R. Michaels, 2001 The Gospels in Their Original Meaning is a commentary on the Gospels of Mark Matthew Luke and John which examines the reasons for the existence of these great writings The Gospels are the most important writings of Scripture for Christians They were composed several decades after the Resurrection to address very important problems in the early Church using the teachings and events of Jesus' public life Yet most readers treat them as biographies about Jesus and never examine the meanings that caused them to be written In this book the interpretation is related to those very important questions that could only be answered by a selection and arrangement of Jesus' words and actions To examine the writings in terms of their purpose does not eliminate the great interpretations related to Jesus' public life Rather it adds another layer of meaning that comes from the actual Gospels' arrangements by later Christians In seeing how these stories of Jesus were used by early Christians we tend to see more clearly how they should be used for Christian witness in our own time
