The Governors Palace Archive:

The Governor's Palace Archive J. N. Postgate, 1973 A continuation of publishing the discoveries made at Nimrud by the British School of Archaeology in Iraq The Governor's Palace Archive J. N. Postgate, 1973 **Manuscripts and Archives** Alessandro Bausi, Christian Brockmann, Michael Friedrich, Sabine Kienitz, 2018-02-19 Archives are considered to be collections of administrative legal commercial and other records or the actual place where they are located They have become ubiquitous in the modern world but emerged not much later than the invention of writing Following Foucault who first used the word archive in a metaphorical sense as the general system of the formation and transformation of statements in his *Archaeology of Knowledge* 1969 postmodern theorists have tried to exploit the potential of this concept and initiated the archival turn In recent years however archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and grounding them again in real institutions The papers in this volume explore the complex topic of the archive in a historical systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how by whom and for which purpose were archival records produced and if they differ from literary manuscripts regarding materials formats and producers scribes **Ancient Archives and Archival Traditions** Maria Brosius, 2003 Our oldest archival records originate from the Near East Systems of archival record keeping developed over several millennia in Mesopotamia before spreading to Egypt the Mycenaean world and the Persian empire and continuing through the Hellenistic and Seleucid periods Yet we know little about the way archival practices were established transmitted modified and adapted by other civilizations This interdisciplinary volume offers a systematic approach to archival documents and to the societies which created them addressing questions of formal aspects of creating writing and storing ancient documents and showing how archival systems were copied and adapted across a wide geographical area and an extensive period of time The Lost Archive Marina Rustow, 2020-01-14 A compelling look at the Fatimid caliphate's robust culture of documentation The lost archive of the Fatimid caliphate 909-1171 survived in an unexpected place the storage room or geniza of a synagogue in Cairo recycled as scrap paper and deposited there by medieval Jews Marina Rustow tells the story of this extraordinary find inviting us to reconsider the longstanding but mistaken consensus that before 1500 the dynasties of the Islamic Middle East produced few documents and preserved even fewer Beginning with government documents before the Fatimids and paper's westward spread across Asia Rustow reveals a millennial tradition of state record keeping whose very continuities suggest the strength of Middle Eastern institutions not their weakness Tracing the complex routes by which Arabic documents made their way from Fatimid palace officials to Jewish scribes the book provides a rare window onto a robust culture of documentation and archiving not only comparable to that of medieval Europe but in many cases surpassing it Above all Rustow argues that the problem of archives in the medieval Middle East lies not with the region's administrative culture but with our failure to understand preindustrial

documentary ecology Illustrated with stunning examples from the Cairo Geniza this compelling book advances our understanding of documents as physical artifacts showing how the records of the Fatimid caliphate once recovered deciphered and studied can help change our thinking about the medieval Islamic world and about premodern polities more broadly

The Historical Evolution of World-Systems C. Chase-Dunn, E. Anderson, 2005-02-18 The rise and decline of great powers remains a fascinating topic of vigorous debate This book brings together leading scholars to explore the historical evolution of world systems through examining the ebb and flow of great powers over time with particular emphasis on early time periods The book advances understanding of the regularities in the dynamics of empire and the expansion of political social and economic interaction networks from the Bronze Age forward The authors analyze the expansion and contraction of cross cultural trade networks and systems of competing and allying political groupings In premodern times these ranged from small local trading networks even the very small ones of hunting gathering peoples to the vast Mongol world system Within such systems there is usually one or a very few hegemonic powers How they achieve dominance and how transitions lead to systems change are important topics particularly at a time when the United States position is in flux The chapters in this book review several recent approaches and present a wealth of new findings

The Spanish Archives of New Mexico Ralph Emerson Twitchell, 1914 In what follows can be found the doors to a house of words and stories This house of words and stories is the

Archive of New Mexico and the doors are each of the documents contained within it Like any house New Mexico's archive has a tale of its own origin and a complex history Although its walls have changed many times its doors and the encounters with those doors hold stories known and told and others not yet revealed In the Archives there are thousands of doors 4 481 that open to a time of kings and popes of inquisition and revolution These archives writes Ralph Emerson Twitchell are by far the most valuable and interesting of any in the Southwest Many of these documents were given a number by Twitchell small stickers that were appended to the first page of each document an act of heresy to archivists and yet these stickers have now become part of the artifact These are the doors that Ralph Emerson Twitchell opened at the dawn of the 20th century with a key that has served scholars policy makers and activists for generations In 1914 Twitchell published in two volumes *The Spanish Archives of New Mexico* the first calendar and guide to the documents from the Spanish colonial period Volume One of the two volumes focuses on the collection known as the Spanish Archives of New Mexico Series I or SANM I an appellation granted because of Twitchell's original compilation and description of the 1 384 documents identified in the first volume of his series *The Spanish Archives of New Mexico* was assembled by the Surveyor General of New Mexico 1854 1891 and the Court of Private Land Claims 1891 1904 The collection consists of civil land records of the Spanish period governments of New Mexico and materials created by the Surveyor General and Court of Private Land Claims during the process of adjudication It includes the original Spanish colonial petitions for land grants land conveyances wills mine registers records books journals dockets reports minutes letters and a variety of other legal documents Each of these documents tell a story sometimes many stories The bulk of the records accentuate the amazingly dynamic nature of land grant and settlement policies While the documents reveal the broad sweep of community settlement and its reverse effect hundreds of last wills and testaments are included in these records that are scripted in the most eloquent and spiritual tone at the passing of individuals into death These testaments also reveal a legacy of what colonists owned and bequeathed to the next generations Most of the documents are about the geographic political and cultural mapping of New Mexico but many reflect the stories of that which is owned both in terms of commodities and human lives Archives inevitably and these archives more than most help to shape current debates about dispossession the colonial past and the postcolonial future of New Mexico For this reason the task of understanding the role of archives archival documents and the kinds of stories that emanate from them has never been more urgent Let this effort and the key provided by Twitchell in his two volumes open the doors wide for knowledge to be useful today and tomorrow From the Foreword by Estevan Rael Galvez New Mexico State Historian

The Spanish Archives of New Mexico Ralph Emerson Twitchell, 2008 In 1914 Twitchell published in two volumes *The Spanish Archives of New Mexico* the first calendar and guide to the documents from the Spanish colonial period The bulk of the records accentuate the amazingly dynamic nature of land grant and settlement policies
