Timms,2014-08-15 From 1841 when the Great Western Railway began building its works at Swindon to 1986 when the works were closed Swindon was a railway town **The Great Western's Last Year** Adrian Vaughan,2013-09-02 Despite being

one of the best known and admired rail companies in the country by 1947 the GWR was at the lowest ebb of its entire history Worn out by war there had been no maintenance for six years and the government couldn t supply the steel it needed for repair The latter half of the 1940s presented a multitude of challenges to overcome some due to the recent war and others individual to the GWR the staff coped with rationing a desperately cold winter and a blazing hot summer and dealt with floods collisions broken rails and failing locomotives The incredible strength of character and can do attitude of GWR workers kept the railway running through it all This history taken from GWR papers and illustrated from them throughout reveals the details of every day as well as the problems and difficulties the staff faced Above all it shows how well they overcame their problems with only muscle power and a steam crane to help and of course no health and safety regulations and arguments to slow them down Adrian Vaughan s unique history of this famous rail company shows just how special the GWR was right through to the end of its very last year *The Great Western at Swindon Works* Alan S. Peck,2009 The

Steam Workshops of the Great Western Railway Ken Gibbs,2014-08-19 The nineteenth century was a time of innovation and expansion across the industrial landscape and nowhere more so than on the railways as the new age of iron steel and steam literally gathered pace At the head of the race up was the iconic Great Western Railway As this mighty corporation grew it absorbed an astonishing 353 railway companies Many of them had their own workshops depots and manufacturing often assembling locomotives to the designs of other companies All these along with the various designs became the responsibility of the GWR on takeover and followed its standardisation of components where this was possible These works became the beating heart of the GWR s vast empire where majestic engines were built and maintained by some of the most skillful and inventive engineers of the day Retired GWR railwayman Ken Gibbs presents a comprehensive portrait of the works from Brunel to the final days of steam in the mid twentieth century and beyond to the rediscovery and renovation of many of the workshops for their unique heritage The GWR Story Rosa Matheson,2012-02-29 The Great Western Railway quickly

coming to be known as God's Wonderful Railway was once regarded as the most advanced in the world Engineered by Isambard Kingdom Brunel it was initially designed to connect Bristol to London and came to develop a distinct character all of its own one of the many reasons why it remains a much loved and popular area of interest This book traces its history covering topics such as the company its engines and carriages its engineers including Gooch Dean Armstrong Collett Churchward and of course Brunel as well as the battle of the gauges Full of little known facts and figures and with numerous photographs and memorabilia as well as a timeline it is a tale full of record breakers and mighty achievements waiting to be retold to a modern age *The Railway Times* ,1906 **The Engineer** ,1877 **Mechanic's Magazine** ,1853
