Forex Method for High Profit Joseph Quattrini, I get a lot of flak from the trading education community for opening up the door for new brand new traders and giving them real opportunity to learn trading the right way from the first day. Most trading shown in books, video training and webinars these days is taught not only unrealistically, it shows you information you really don't need and that cannot help you have an edge. They are showing you how to trade on information that has already happened and there is zero edge in that. If you're getting into this business to make money, I strongly encourage you to pay strict attention to the principles in *Forex Method for High Profit*. The professional advice I give you in *Forex Method for High Profit* will empower you to have confidence and zero fear of going in the live markets and accurately initiating a low risk high reward position with which you can have a high probability outcome from being a live market participant. Becoming a successful self-directed investor and trader is not nearly as difficult as one would think as long as they have the proper education and proper knowledge base right from day one. It takes a while but you can do it. Once I tell you the basics to investing and day trading the live financial markets to make money every day with the smart money, you will be on your way to consistent profits every day. From reading *Forex Method for High Profit*, you'll be able to incorporate the simple investing and trading principles you learn into your own core strategy when you put it together. Use the extra links provided at the end of the book to do more of your own research to begin building your own core strategy for whatever your goals from trading are. Your core strategy can and should be very simple and really all you will need to make money with the smart money every day in the live financial markets or any liquid market for that matter. I use the method in *Forex Method for High Profit* every time I initiate a position in the live market after doing my due diligence and research and you should too because it is the only way the live markets actually work, which is on supply and demand. Doesn't it make sense then to use that as your trading method? It is simple enough that a 12-year-old can learn it. How old are you right now? If you need to learn this business from the ground up, then *Forex Method for High Profit* is definitely a good starting point for you. I encourage you to read it as many times as it takes for it to become clear to you as to what you do and do not need to learn to be successful in this business from the start. There are no money back guarantees in the financial markets; however, you must know the right information from the start to have a chance of becoming consistently profitable and financially successful.
