The Greek Gift Politics In A Cypriot Village:

The Greek Gift Peter Loizos, 1975 **The Normalisation of Cyprus' Partition Among Greek Cypriots** Gregoris Ioannou, 2020-08-31 This book explores the basic dynamics that shaped the Cyprus problem with a focus on recent decades. The author deals with the periods, nodal points and fields that produced the conditions for the normalisation of partition and also presents the Cyprus problem as viewed from the outside. The chapters approach Cyprus division in light of power relations in society, the interaction between the political elite and society and discuss the political and ideological dynamics as manifested in the public sphere. While analysing primarily the Greek Cypriot community, the book also refers to parallel developments in the Turkish Cypriot and international communities, arguing that the normalisation of Cyprus partition is rooted in the political economy and political culture of Greek Cypriots. At the same time, from the perspective of the peace and reunification movement, this is an inherently contradictory and potentially unstable process that can be overturned. A remarkably thorough study focusing on nationalist narratives, political and media discourses and socio-economic structures in Cyprus and their impact on the formation and transformation of political identities since the 1950s. Unlike many other books on the issue, Ioannou analyses social and political developments in both the Greek Cypriot and the Turkish Cypriot communities. This approach sheds light on the internal reasons of the perpetuation of the island's division, which the geopolitical and international relations approaches alone miss to grasp. Combining the analytical skills of a political scientist and his personal experience as an engaged citizen in favour of unification, Ioannou offers significant insight on a complex and traumatic conflict that remains one of Europe's black spots. Athena Skoulariki, Assistant Professor in Sociology of Communication, Discourse Analysis and Social Representations, University of Crete, Greece. The basic argument of the book is that the consolidation of partition was neither automatic nor happened behind the backs of Greek Cypriots. The very interesting and demythologising work of Gregoris Ioannou brings to light a hidden but common secret of the Greek Cypriots. Alexis Heraklides, Emeritus Professor of International Relations, Panteion University, Greece. Ioannou projects a multi-focal spotlight on the Cyprus problem so as, at least for the careful reader, this becomes not only an interesting topic in itself but also a cognitive springboard from which to understand broader pathologies of our common social and political life. Seraphim Seferiades, Associate Professor in Political Science, Panteion University, Greece. **Heirs of the Greek Catastrophe** Renée Hirschon, 2023-05-12 *Heirs of the Greek Catastrophe* is a landmark work in the areas of anthropology and migration studies. Since its first publication in 1989, this classic study has remained in demand. The third edition is published to mark the centenary of the 1923 Lausanne Convention, which led to the movement of some 1.5 million persons between Greece and Turkey at the conclusion of their war. It includes updated material with a new Preface, Afterword by Ayhan Aktar and map of the wider region. The new Preface provides the context in which the original research took place, assesses its innovative aspects and explores the dimensions of history and identity, which are predominant themes in the book. *The Ecology of*
