The Green City:

The Green City Jürgen Breuste, 2022-01-04 This textbook on the Green City examines urban nature as an ideal provider of services and conceptual urban design approach It answers important contemporary questions that arise about the ecological and cultural interactions development and structure and ecological performance of urban nature worldwide The book explains what urban nature is how it came to be and how it evolved in the context of the natural and cultural conditions of its sites It also describes what constitutes urban biodiversity and the role of differentiated urban nature in the Green City concept Theories of urban development and ecology are linked to practical applications of urban planning and illustrated with many case studies and examples The great potentials of urban nature are shown in detail In order to cope with or mitigate problems in the city a targeted urban nature management adapted to the specific conditions of the different types of urban nature is needed which includes nature conservation as well as nature design always keeping in mind the relation to the urban dwellers The textbook is especially addressed to students and teachers of urban planning ecology geography social sciences as well as practitioners of urban design and nature conservation This book is a translation of the original German 1st edition *Die Grüne Stadt* by Jürgen Breuste published by Springer Verlag GmbH Germany part of Springer Nature in 2019 The translation was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done by the author primarily in terms of content and scientific terms so that the book will read stylistically differently from a conventional translation but without loss of messages Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors [The Green City](#) Nicholas Low, Brendon Gleeson, Ray Green, Darko Radovic, 2016-05-09 A team of city building professionals explain in straightforward terms how the idea of ecological sustainability can be embodied in the everyday life of homes communities and cities to make a better future The book considers and answers three questions What does the global agenda of sustainable development mean for the urban spaces where most **The Green City Witch** Lynn Shore, 2025-10-28 A beautifully illustrated handbook for urban witches that combines green witchcraft with city life Rich with herbal and esoteric wisdom this delightful and thoughtful guide provides an essential basis for magical practitioners living in cities to connect with nature magic and community This book is for urbanites who want nature and magic in their lives Written by an experienced herbalist who eats street weeds talks to crows casts spells and brews potions this book shows how to walk a magical path while riding the waves of urban life Divided into three sections *The Green City Witch* covers the lifestyle knowledge and techniques of real witches who love nature and city life The lifestyle section covers how to work sustainably grow roots in new towns align with the seasons and forage all within city limits The urban nature section contains an extensive directory that details how to engage with fascinating lifeforms that thrive in city buildings streets and parks From spider plants to knotweed and parakeets to earthworms the plant animal and bug lore entries offer magical symbolism

folklore foraging or care advice and practical ways to weave them into daily life The techniques section explains how to achieve magical goals with rituals sigils spells and charms blood magic shapeshifting and divination all with local natural sustainable materials The Green City Witch is an invaluable resource for beginners and experienced magical practitioners alike who wish to embrace the endless magical potential and gifts of urban nature *The Green City and Social Injustice* Isabelle Anguelovski, James J. T. Connolly, 2021-11-29 The Green City and Social Injustice examines the recent urban environmental trajectory of 21 cities in Europe and North America over a 20 year period It analyses the circumstances under which greening interventions can create a new set of inequalities for socially vulnerable residents while also failing to eliminate other environmental risks and impacts Based on fieldwork in ten countries and on the analysis of core planning policy and activist documents and data the book offers a critical view of the growing green planning orthodoxy in the Global North It highlights the entanglements of this tenet with neoliberal municipal policies including budget cuts for community initiatives long term green spaces and housing for the most fragile residents and the focus on large scale urban redevelopment and high end real estate investment It also discusses hopeful experiences from cities where urban greening has long been accompanied by social equity policies or managed by community groups organizing around environmental justice goals and strategies The book examines how displacement and gentrification in the context of greening are not only physical but also socio cultural creating new forms of social erasure and trauma for vulnerable residents Its breadth and diversity allow students scholars and researchers to debunk the often depoliticized branding and selling of green cities and reinsert core equity and justice issues into green city planning a much needed perspective Building from this critical view the book also shows how cities that prioritize equity in green access in secure housing and in bold social policies can achieve both environmental and social gains for all

Green City Planning and Practices in Asian Cities Zhenjiang Shen, Ling Huang, KuangHui Peng, Jente Pai, 2018-03-21 Urban planners across the world are faced with sustainable development issues in their work especially when they are tasked with creating green cities or where sustainable and smart growth in urban settings are set as primary goals This book introduces green city planning and practices from the three dimensions of green building innovation community development and smart city strategies and argues that effective implementation of green city planning are a necessary pre condition for reaching sustainable urban development A range of authors representing a broad disciplinary spectrum bring together the different standards of green building methods and urban design techniques and clearly sketch the roles of both spatial designers and urban researchers in the implementation of green city planning at regional community and single building level in order to arrive at an integrated approach across different scales

Tina and the Green City Carole Douglas, 2005 Tina and the Green City tells the story of Tina who inspired by her grandmother s stories of how green the city used to be decides to take matters into her own hands and with the help of her friends make the city green once more The end of the publication contains a number of facts and figures about the environment and cities we
