*Saving Abstraction* Ryan Dohoney, 2019-09-16 *Saving Abstraction* Morton Feldman the de Menils and the Rothko Chapel tells the story of the 1972 premier of Morton Feldman s music for the Rothko Chapel in Houston Built in 1971 for people of all faiths or none the chapel houses 14 monumental paintings by famed abstract expressionist Mark Rothko who had committed suicide only one year earlier Upon its opening visitors responses to the chapel ranged from spiritual succor to abject tragedy the latter being closest to Rothko s intentions However the chapel s founders art collectors and philanthropists Dominique and John de Menil opened the space to provide an ecumenically and spiritually affirming environment that spoke to their avant garde approach to Catholicism A year after the chapel opened Morton Feldman s musical work Rothko Chapel proved essential to correcting the unintentionally grave atmosphere of the de Menil s chapel translating Rothko s existential dread into sacred ecumenism for visitors Author Ryan Dohoney reconstructs the network of artists musicians and patrons who collaborated on the premier of Feldman s music for the space and documents the ways collaborators struggled over fundamental questions about the emotional efficacy of art and its potential translation into religious feeling Rather than frame the debate as a conflict of art versus religion Dohoney argues that the popular claim of modernism s autonomy from religion has been overstated and that the two have been continually intertwined in an agonistic tension that animates many 20th century artistic collaborations

Thomas Rimer, 2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862-1913 whose Book of Tea is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible
