Slovenia Mojmir Mrak, Matija Rojec, Carlos Silva-Jauregui, 2004 Small States and the European Union Lino Briguglio, 2016-06-10 The Economies of European Union Small Member and Candidate States deals with the small states and candidate states of the EU with a focus on their economic structure and performance and the impact of EU membership past actual and potential on the economy The small states to be covered are those with a population of 3 million or less namely Cyprus Estonia Iceland Latvia Lithuania Luxembourg Malta Macedonia Montenegro and Slovenia This title adds to the literature on the EU on regional integration generally and on small states It delves into the special constraints of small economic size and examines why and how the small states of Europe manage to compete albeit not without difficulty with the larger states in the block where free trade prevails The book answers the following research questions What are the special economic development constraints faced by the small states of the EU What policy options have been used by or are available to these small states to address these constraints How can the economic resilience and competitiveness of these states be enhanced Has EU membership been mostly advantageous for these small states What are the economic prospects for these states as EU member states The book is aimed primarily for students of EU affairs and of regional integration in general It will also be useful for students of subjects relating to small states It may also appeal to policy makers of small states and to officials of international and regional organisations that have a constituency that includes small states *Welfare State Transformation in the Yugoslav Successor States* Marija Stambolieva, 2016-04-28 Welfare states are the product of economic political and social interactions and undergo changes as these interactions transform Existing welfare state theories mainly tend to explain the emergence and development of the welfare state in the western industrialized and capitalist world While the states of Central and Eastern Europe have recently been integrated in the academic discourse the countries of the former Yugoslavia have been predominantly excluded from comparative analysis Issues of nationalism and ethnic polarization have been prevalent there while socio-economic issues have been put on the back burner This book explores what happened to the strong social states and relatively equal societies which existed in Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into

account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book s arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions

Working and Employment Conditions in New EU Member States Daniel Vaughan-Whitehead,2005 This study presents information on trends in working and employment conditions in the 10 new EU member states within a year of their accession By comparing them with the other EU member states it provides insights into general trends that we may expect between convergence and diversity in an enlarged EU The volume produced by a working group of leading experts in this field provides information on practices at enterprise level through a series of case studies in new member states and identifies how the different elements of the world of work employment contracts working time wages social dialogue and workers participation reconciliation of work and family are combined

Structural Origins of Post-Yugoslav Regimes Valentina Petrović,2024-09-16 This analysis of the Yugoslav democratisation process explains the variation of regime outcomes within a structuralist framework Focusing on the post socialist world it goes beyond ethnicity and elite agency to bring the role of class and the state into discussions of third wave democracies Offering an in depth study of four post Yugoslav cases and relying on extensive field work it examines how civil society state structures and elite agency influence the trajectories of Croatia North Macedonia Serbia and Slovenia after the end of socialism The analysis also considers the impact of the European Union on domestic conditions The author argues that no single factor explains the occurrence of democracy It is instead the result of the combination of an autonomous civil society a non captured state and ruling elites willing to implement democratic reforms Concomitant with this the analysis provides evidence that the only sufficient condition for the occurrence of democracy is non captured state structures State capacity therefore plays a central role in democratisation This book will be of interest to scholars and students of Eastern Europe Southeastern Europe the EU and democratisation as well as to policymakers and nongovernmental organisations

Back To Europe Karen Henderson,2005-10-09 As The European Union Opens Negotiations On Membership With Five Of The Ten post communist states who have applied this book looks at some of the challenges presented by Eastern enlargement not only to existing member states and European institutions but also to the Central and Eastern European countries themselves The approach is interdisciplinary and brings together contributions from academic specialists on security and international relations European institutions the economics of european integration and the domestic politics of Central and Eastern Europe The book has been structured to provide a clear and comprehensive introduction to the topic for students taking a range of courses including European integration the politics of post communist democracies and Europe s post Cold war order At the

Regime Change in the Yugoslav Successor States Mieczysław P. Boduszynski, 2010-04-26 In the 1990s amid political upheaval and civil war the Socialist Federal Republic of Yugoslavia dissolved into five successor states. The subsequent independence of Montenegro and Kosovo brought the total number to seven. Balkan scholar and diplomat to the region Mieczysław P. Boduszynski examines four of those states: Croatia, Slovenia, Macedonia, and the Federal Republic of Yugoslavia, and traces their divergent paths toward democracy and Euro-Atlantic integration over the past two decades. Boduszynski argues that regime change in the Yugoslav successor states was powerfully shaped by both internal and external forces: the economic conditions on the eve of independence and transition, and the incentives offered by the European Union and other Western actors to encourage economic and political liberalization. He shows how these factors contributed to differing formulations of democracy in each state. The author engages with the vexing problems of creating and sustaining democracy when circumstances are not entirely supportive of the effort. He employs innovative concepts to measure the quality of and prospects for democracy in the Balkan region, arguing that procedural indicators of democratization do not adequately describe the stability of liberalism in post-communist states. This unique perspective on developments in the region provides relevant lessons for regime change in the larger post-communist world. Scholars, practitioners, and policymakers will find the book to be a compelling contribution to the study of comparative politics, democratization, and European integration.

Europeanization and Informal Networks in Southeastern Europe Alexander Mesarovich, 2024-11-08 *Europeanization and Informal Networks in Southeastern Europe* considers the impact of political culture, including informal rules which regulate political behaviour, on formal political processes. Exploring the EU accession processes of Slovenia, Croatia, and Serbia, the author identifies how the working and social culture of political elites enabled and/or constrained the ability of the respective legislatures to pass the reforms necessary to become members of the EU. The innovative approach quantifies informality at the elite level, taking a rigorous multi-methods approach to identifying the sometimes subtle impact of informal cultures on formal political processes. In doing so, it demonstrates the added value from studying informality by providing a richer understanding of the factors which help motivate and drive political action, and which may be invisible to an outside observer. By examining features such as the connectedness of individuals and key committees, Mesarovich finds that hierarchical network structures can both accelerate and interfere with reform processes under different conditions. This book advances the field of Europeanization both within the framework of accession and more broadly by highlighting network-level and individual factors which can deeply impact state-wide political outcomes and will be of primary interest to an academic audience interested in the region. EU studies, Social Network Analysis, and regional politics.
