Vulnerability Silvia Bonacchi, 2024-06-17
This collection presents studies on a wide range of discursive positions marked by vulnerability and investigates the functions of self positioning actors as vulnerable in contemporary social discourses. As a phenomenon that manifests itself in different social arenas, vulnerable positions and instances of self positioning indicate various crisis situations on a broad spectrum of phenomena of manifestations and implications. Starting from the assumption that vulnerable self positioning and stance taking is manifested at the level of discursive practices, performative processes and material achievements, the contributors describe a series of mechanisms of staging vulnerability in a wide range of manifestations among them physical, psychological, social, sexual and gender, linguistic and institutional vulnerability.

The World in the Mind and Sculpture of Deafblind People Ewa Anna Niestorowicz, 2017-05-11
The World in the Mind and Sculpture of Deafblind People discusses the creative capabilities of people with simultaneous impairment of sight and hearing. It is a pioneering interdisciplinary study combining theories from the fields of pedagogy, psychology, semiotics and theory of art. It presents a study of the act of creation performed by deafblind people which makes it possible to propose a vision of reality as conveyed through their sculptures and which forms a base for the scrutiny of the specific and individual ways of understanding the world and its visualisation in the minds of deafblind artists. The key to the model of the analysis of the creative act proposed here is the concept of a sign developed by semiotics as proposed by Morris and Peirce. The study indicates the fact that creative challenges can become the means of transgressing barriers of disabilities can serve as therapy and can influence social attitudes resulting in conscious studying of participating in and transforming reality. This book will aid specialists working within the fields of pedagogy, special education, psychology and fine arts as well as teachers, students, researchers, art therapists and workshop instructors.
