Hagger's 55 books include innovative works on literature history philosophy and international politics. In his first published literary work he revived the Preface which had fallen into disuse after Wordsworth and Shelley. He went on to write Prefaces sometimes called Prologues Introductions or Introductory Notes for all his subsequent books. *Collected Prefaces* a collection of 55 Prefaces excluding the Preface to this book sets out his thinking and the reader can follow the development of his philosophy of Universalism of which he is the main exponent his literary approach particularly his combination of Romanticism and Classicism which he calls neo Baroque and his metaphysical thinking. His Prefaces can be read as essays and as in T S Eliot's *Selected Essays* there is an interaction between adjacent Prefaces that brings an entirely new perspective to Hagger's works. These Prefaces cover an enormous range. Nicholas Hagger is a Renaissance man at home in many disciplines. His Universalism focuses on humankind's relationship to the whole universe as reflected in seven key disciplines seen as wholes the whole of literature history philosophy and the sciences mysticism religion international politics and statecraft and world culture. Behind all the Prefaces is Hagger's fundamental perception of the unity of the universe as the One and of humankind's position in it. These Prefaces complement his *Selected Letters* a companion volume also published by O Books and contain startling insights that illumine and send readers to the works the Prefaces introduce.
