Generic Histories of German Cinema Jaimey Fisher, 2013 *Generic Histories* offers a fresh approach tracing a series of key genres including horror science fiction the thriller Heimat films and war films over the course of German cinema history It also addresses detective films comedies policiers and romances that deliberately localize global genres within Germany a form of transnationalism frequently neglected This focus on genre and history encourages rethinking of the traditional opposition and hierarchy between art and popular cinema that has informed German film studies In these ways the volume foregrounds genre theory's potential for rethinking film history as well as cultural history more broadly Publisher's description
