The Summer Canada Burned Monica Zurowski, Postmedia, 2023-11-28 With over one hundred full color photographs comes a harrowing portrait of Canada s most devastating wildfire season ever the effects of which could be felt and seen across the world All hell has broken loose That s the phrase some fire officials use to describe the unprecedented 2023 wildfire season in Canada Never before has the vast and rugged beauty of this country been ravaged by as many devastating wildfires Never before have the fires been this big or moved this fast Choking smoke blanketed the continent including the United States putting millions of people under air quality advisories and even traveled as far as Norway The wildfire season started in the spring with most provinces and territories facing a drought In early May many parts of Canada grappled with a record breaking number of fires By the end of August wildfires had devoured more than 15 million hectares 37 million acres of Canadian forest more than six times the average usually lost to fire Provinces such as British Columbia and Nova Scotia experienced their largest wildfires ever Quebec Alberta Saskatchewan and Northwest Territories battled their most destructive wildfires ever Tens of thousands of Canadians from coast to coast to coast were chased from their homes by flames or the threat of flames seeking shelter in evacuation centers across the country People from Halifax Yellowknife Kelowna Shuswap and many other communities survived harrowing escapes along flame lined roads with embers raining down upon them Thousands of firefighters from Canada and around the world risked their lives to battle the blazes which already numbered almost 6 000 by the end of August Four firefighters lost their lives doing so The Summer Canada Burned tells the dramatic story of Canada s wildfires in 2023 a story that provides a case study of the changing climate and its impacts on our environment It reflects evolving attitudes about approaches to wildfires and the role all people can play in prevention Most importantly however the story of Canada s wildfires is a story of loss and of survival From the ashes people rise communities rebuild and seeds of new growth

The letters of which these volumes are composed embrace the second half of journeys in the East extending over a period of two years They attempt to be a faithful record of facts and impressions but were necessarily written in haste at the conclusion of fatiguing marches and often in circumstances of great discomfort and difficulty and I relied for their correction in the event of publication on notes made with much care Unfortunately I was robbed of nearly the whole of these partly on my last journey in Persia and partly on the Turkish frontier a serious loss which must be my apology to the reader for errors which without this misfortune would not have occurred The bibliography of Persia is a very extensive one and it may well be that I have little that is new to communicate except on a part of Luristan previously untraversed by Europeans but each traveller receives a different impression from those made upon his predecessors and I hope that my book may be accepted as an honest attempt to make a popular contribution to the sum of knowledge of a country and people with which we are likely to be brought into closer relations As these volumes are simply travels in Persia and Eastern Asia Minor and are not a book on either country the references to such subjects as were not within the sphere of my observation are brief and incidental The administration of government the religious and legal systems the tenure of land and the mode of taxation are dismissed in a few lines and social customs are only described when I came in contact with them The Ilyats or nomadic tribes form a very remarkable element of the population of Persia but I have only noticed two of their divisions the Bakhtiari and Feili Lurs The antiquities of Persia are also passed over with hardly a remark as well as many other subjects which have been threshed out by previous writers with more or less of accuracy I make these omissions with all the more satisfaction because most that is knowable concerning Persia will be accessible on the publication of a work now in the Press Persia and the Persian Question by the Hon George N Curzon M P who has not only travelled extensively in the country but has bestowed such enormous labour and research upon it and has had such exceptional opportunities of acquiring the latest and best official information that his volumes may fairly be described as exhaustive It is always a pleasant duty to acknowledge kindness and I am deeply grateful to several friends for the help which they have given me in many ways and for the trouble which some of them have taken to recover facts which were lost with my notes as well as for the careful revision of a portion of my letters in MS I am indebted to the Indian authorities for the materials for a sketch map for photographs from which many of the illustrations are taken and for the use of a valuable geographical report and to Mr Thistleton Dyer Director of the Royal Botanic Gardens at Kew for the identification of a few of my botanical specimens *University of Chicago Law Review: Volume 79, Number 3 - Summer 2012* University of Chicago Law Review,2012-11-12 A leading law review offers a quality
