The Management of Burns and Fire Disasters: Perspectives 2000 M. Masellis, S. William A. Gunn, 2012-12-06 This volume is published with a triple aim to take a look back over the advances during the ten years of the Mediterranean Burns Club and mark its anniversary to follow up and strengthen the successful twinning of burns as a clinical individual illness problem and fires as a societal disaster management problem and to look ahead at the perspectives of burn care and fire prevention in the fast approaching new century The occasion also marks the tenth annual presentation of the prestigious G Whitaker International Burns Prize to which the Mediterranean Burns Club acts as the scientific fulcrum The award is now established as the most distinguished recognition in burns science worldwide and it is gratifying that the contributions of many of the renowned recipients will be found in this book This is a sequel to The Management of Mass Burn Casualties and Fire Disasters which contained the Proceedings of the First International Conference on Burns and Fire Disasters The book

and the conference have fully justified the authors initial concept that burn specialists constantly combatting burn disease and promoting rehabilitation of the victims especially in mass casualty situations had for too long remained separate from that other essential sector the fire fighting authorities and fire prevention systems whose aim is also the protection of the individual and the promotion of safety This long overdue synergism has now become reality and the present volume strengthens this desirable trend
