Song Called Home The Hope Of A Child's Heart:

A Song Called Home Sara Brooks, 2003-04-01 *A Song Called Home* is the life story of a baby of mysterious birth whose parents lived on the Osage Indian reservation Her father and both grandfathers were architects and built homes and buildings from Oklahoma to Martha's Vineyard in the early 1900s Before she became four years old Mary Jeanette's father abandoned her and his marriage leaving the child to question her birth and family history Thus began a lifetime search for her heritage and a home of her own The book captures the hearts and struggles of Mary Jeanette and her mother as they moved from place to place across Oklahoma and Kansas to live with relatives After her high school graduation she met a young man who brought deep love and a devotion that led to marriage The lives of these two characters as children mirrored each other and they found that they had much in common including the kind of home they wanted The stories of their life as a couple bring them some exciting experiences during the Great Depression the Dust Bowl Days through WWII and to the promise of a bright future

Hickey, 2010-04-15 For Atlanta the early decades of the twentieth century brought chaotic economic and demographic growth. Women, black and white, emerged as a visible new component of the city's population. As maids and cooks, secretaries and factory workers, these women served the better classes in their homes and businesses. They were enthusiastic patrons of the city's new commercial amusements and the mothers of Atlanta's burgeoning working classes. In response to women's growing public presence, as Georgina Hickey reveals, Atlanta's boosters, politicians, and reformers created a set of images that attempted to define the lives and contributions of working women. Through these images, city residents expressed ambivalence toward Atlanta's growth, which, although welcome, also threatened the established racial and gender hierarchies of the city. Using period newspapers, municipal documents, government investigations, organizational records, oral histories, and photographic evidence, *Hope and Danger in the New South City* relates the experience of working-class women across lines of race as sources of labor, community members, activists, pleasure seekers, and consumers of social services to the process of urban development.
