to overcome the expressive limitations of lyrical poetry This book reframes modern Italian poetry in a truly interdisciplinary perspective broadening our understanding of its prominence within the humanities in the twentieth century and beyond

Meyerbeer Studies Robert Ignatius Letellier, 2005 In 1936 Meyerbeer's opera *Les Huguenots* achieved its 1120th superscript performance at the Paris Opera This extraordinary record is an indication of the vast fame and influence of its composer who was once a household name like Verdi or Puccini Now he is unknown to the ordinary opera lover These essays represent something of an odyssey to seek out and know the shadowy figure behind so much divided opinion and long neglect They represent attempts at various stages over thirty years to find Meyerbeer and enter the world of his remarkable operatic creations that once so characterized the musical life of European civilization Jacket *Handbook of Death and Dying* Clifton D. Bryant, 2003-10 Dying is a social as well as physiological phenomenon Each society characterizes and consequently treats death and dying in its own individual ways ways that differ markedly These particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar economical educational religious and political implications The *Handbook of Death and Dying* takes stock of the vast literature in the field of thanatology arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work This two volume handbook will provide direction and momentum to the study of death related behavior for many years to come Key Features More than 100 contributors representing authoritative expertise in a diverse array of disciplines Anthropology Family Studies History Law Medicine Mortuary Science Philosophy Psychology Social work Sociology Theology A distinguished editorial board of leading scholars and researchers in the field More than 100 definitive essays covering almost every dimension of death related behavior Comprehensive and inclusive exploring concepts and social patterns within the larger topical concern Journal article length essays that address topics with appropriate detail Multidisciplinary and cross cultural coverage **Sudden Death in Opera** Michael Trimble, Robert Ignatius Letellier, Dale Hesdorffer, 2021-09-28 An aspect of dying in opera rarely observed or commented on is Sudden Unexpected Death There are many deaths in this

melodramatic genre most follow expected causes like murder suicide or old age This book explores those deaths which occur without obvious natural causes These are often central to the overall drama of the opera representing denouements forming the epiphany of the story and the apotheosis for the audience The book identifies 50 operas where such events occur exploring the role of the dramatis personae the circumstances of their dying and specific themes that emerge These include a preponderance of females especially in the 19th century who die mainly at the end of the operas often in the context of tragedy It charts the growing awareness in the medical sciences of the unconscious forces driving human behaviour including liminal mental states and trances which influenced these operas and continue to affect human behaviour to the present day In addition the changing philosophies that are intertwined with operatic narratives in particular stemming from Kant Hegel Schopenhauer and Nietzsche are important in the book's exegesis as is the special role of Wagner's compositions This leads to the exploration of recurrent concepts such as the Liebestod the ewig Weibliche and redemption itself
