St Wulfstan And His World Studies In Early Medieval Britain:

St. Wulfstan and His World Julia Barrow, Nicholas P. Brooks, Nicholas Brooks, 2005 St Wulfstan and his World is a collection of 11 essays based on papers given at a conference to mark the 900th anniversary of the death of St Wulfstan of Worcester Multi disciplinary in approach St Wulfstan and his World establishes the major contributions that Wulfstan and his cathedral community made to eleventh century ecclesiastical and secular politics art learning architecture and music and also sets his life within the rural and urban society of his day The Divine Office in Anglo-Saxon England, 597-c.1000 Jesse D. Billett, 2014 When did Anglo Saxon monks begin to recite the daily hours of prayer the Divine Office according to the liturgical pattern prescribed in the Rule of St Benedict Going beyond the simplistic assumptions of previous scholarship this book reveals that the early Anglo Saxon Church followed a non Benedictine Office tradition inherited from the Roman missionaries the Benedictine Office arrived only when tenth century monastic reformers such as Dunstan and thelwald decided that true monks should not use the same Office liturgy as secular clerics a decision influenced by eighth and ninth century Frankish reforms The author explains for the first time how this reduced liturgical diversity in the Western Church to a basic choice between secular and monastic forms of the Divine Office he also uses previously unedited manuscript fragments to illustrate the differing attitudes and Continental connections of the English Benedictine reformer and to show that survivals of the early Anglo Saxon liturgy may be identifiable in later medieval sources **The Anglo-Saxon Chancery** Ben Snook, 2015 An exploration of Anglo Saxon charters bringing out their complexity and highlighting a range of broad implications **The Clergy in the Medieval World** Julia Barrow, 2015-01-15 The first broad ranging social history in English of the medieval secular clergy *Living Through Conquest* Elaine Treharne, 2012-07-05 Living through Conquest is the first ever investigation of the political clout of English from the reign of Cnut to the earliest decades of the thirteenth century It focuses on why and how the English language was used by kings and their courts and by leading churchmen and monastic institutions at key moments from 1020 to 1220 **Lives, Identities and Histories in the Central Middle Ages** Julie Barrau, David Bates, 2021-10-07 How did medieval people define themselves And how did they balance their identities as individuals with the demands of their communities Lives Identities and Histories in the Central Middle Ages intertwines the study of identities with current scholarship to reveal their multi layered sometimes contradictory dimensions Drawing on a wide range of sources from legal texts to hagiographies and biblical exegesis and diverse cultural and social approaches this volume enriches our understanding of medieval people s identities as defined by themselves and by others as individuals and as members of groups and communities It adopts a complex and wide ranging understanding of what constituted identities beyond family and regional or national belonging such as social status gender age literacy levels and displacement New figures and new concepts of identities thus emerge from the dialogue between the chapters through an approach based on life histories lived experience ethnogenesis theories of diaspora cultural memory and generational change **Shrines of**

the Saints Michael Tavinor, 2016-05-18 This book explores the history and significance of shrines to the saints It includes information on working shrines and a reflection on the power of shrines from historic cathedrals to the roadside shrines of today

Princes of the Church David Rollason, 2017-06-14 Princes of the Church brings together the latest research exploring the importance of bishops palaces for social and political history landscape history architectural history and archaeology It is the first book length study of such sites since Michael Thompson's *Medieval Bishops Houses* 1998 and the first work ever to adopt such a wide ranging approach to them in terms of themes and geographical and chronological range Including contributions from the late Antique period through to the eighteenth and nineteenth centuries it deals with bishops residences in England Scotland Wales the Byzantine Empire France and Italy It is structured in three sections design and function which considers how bishops palaces and houses differed from the palaces and houses of secular magnates in their layout design furnishings and functions landscape and urban context which considers the relationship between bishops palaces and houses and their political and cultural context the landscapes and towns or cities in which they were set and the parks forests and towns that were planned and designed around them and architectural form which considers the extent of shared features between bishops palaces and houses and their relationship to the houses of other Church potentates and to the houses of secular magnates

English Medieval Shrines John Crook, 2011 The cult of saints is one of the most fascinating manifestations of medieval piety It was intensely physical saints were believed to be present in the bodily remains that they had left on earth Medieval shrines were created in order to protect these relics and yet to show off their spiritual worth at the same time allowing pilgrims limited access to them English Medieval Shrines traces the development of such structures from the earliest cult activities at saintly tombs in the late Roman empire through Merovingian Gaul and the Carolingian Empire via Anglo Saxon England to the great shrines of the fourteenth and fifteenth centuries The greater part of the book is a definitive exploration on a basis that is at once thematic and chronological of the major saints cults of medieval England from the Norman Conquest to the Reformation These include the famous cults of St Cuthbert St Swithun and St Thomas Becket and lesser known figures such as St Eanswyth of Folkestone or St Ecgwine of Evesham John Crook an independent architectural historian archaeological consultant and photographer is the foremost authority on English shrines He has published numerous books and papers on the cult of saints
