Catholic Moral Tradition, Revised David

Bohr, 2006-02-22 Too many Catholics tend to believe that morality is primarily about keeping laws and avoiding sin Catholic Moral Tradition Revised shows how from the beginning the Christian moral life is first and foremost about living our lives according to the new law of grace The gift of the Holy Spirit given us at baptism is a dynamic inner principle that transforms us into a new creation in Christ This book presents an introductory summary of contemporary Catholic moral teaching based upon the renewal mandated by the Second Vatican Council It also incorporates subsequent Church documents especially the moral encyclicals of John Paul II Veritatis Splendor and Evangelium Vitae along with his three encyclicals on Catholic social doctrine and the Catechism of the Catholic Church

Apatheia in the Christian Tradition Joseph H. Nguyen

SJ, 2018-02-21 To many modern people apatheia being without suffering without passion sounds like cold heartedness and indifference to others a condition to be avoided However in the classical world and for many in the historic Christian church it was a spiritual state to aspire to What exactly is apatheia What is its origin How has it been used in spiritual writings throughout the centuries of Christian practice And how may it help us today to articulate a Christian understanding of the soul's spiritual well being The central aim of the book is twofold to rediscover the meaning and function of the Greek term apatheia as it was understood and employed by the Stoics in their philosophical and religious writings and to explore how the theologians of the church Origen Evagrius John Cassian Maximus and Ignatius of Loyola interpreted apatheia for their spiritual practice Nguyen argues that the concept of apatheia in the Christian spiritual tradition connotes the state of spiritual peace or well being of the human soul wherein excessive and negative emotions such as lust excessive desire for food and drink anger envy resentment self love and pride are replaced by reasonable desires love and humility

Principles of Art History Writing

David Carrier, 1991 Principles of Art History Writing traces the changes in the way in which writers about art represent the same works These differ in such deep ways as to raise the question of whether those at the beginning of the process even saw the same things as those at the end did Carrier uses four case studies to identify and explain changing styles of restoration and the history of interpretation of selected works by Piero Caravaggio and van Eyck

Back cover Theatre in a Media Culture Amy Petersen Jensen, 2014-11-04 As the media have increasingly become the lens through which we see the world media styles have shaped even the fine arts and contemporary theatre is particularly indebted to mass media's dramatic influence In order to stay culturally and financially viable theatre producers have associated theatrical productions and their promotion with film television and the Internet by adopting new theatrical practices that mirror the form and content of mass communication This work demonstrates how mediatization or the adoption of the semantics and the contexts of mass media has changed the way American theatre is produced performed and perceived Early chapters use works like Robert Wilson's 3D digital opera Monsters of Grace and Thecla Schophorst's digitally animated Bodymaps to demonstrate the shifting nature of live performance Critical analysis of the interaction

between the live performer and digital technology demonstrates that the use of media technology has challenged and changed traditional notions of dramatic performance. Subsequent discussion sustains the argument that theatre has reconfigured itself to access the economic and cultural power of the media. Final chapters consider the extent to which mediatization undermines theatrical authorship and creativity.
