Staging Anatomies:

Staging Anatomies Hillary M. Nunn, 2017-03-02 Hillary M Nunn here traces the connections between the London public's interest in medical dissection and the changing cultural significance of bloodshed on the early Stuart playhouse stage. Considering the playhouses role within the social world of early modern London Nunn explores the influence of public dissection upon the presentation of human bodies in well known plays such as King Lear as well as in a wide range of often neglected early Stuart tragedies like *The Second Maiden's Tragedy* and *Revenge for Honour*. In addition to dramatic texts the study draws heavily on anatomy treatises and popular pamphlets of the time. Incorporating views of anatomy's significance from a wide range of sources this study shows the ways in which early Stuart dramatists called upon Londoners' increasing fascination with anatomical dissection to shape the staging of their tragedies. Manoop S. Bhutani, John C. Deutsch, 2009-12 Accompanying DVD ROM contains video ancillary to the text. Menu frames. *Bodies, Speech, and Reproductive Knowledge in Early Modern England* Sara D. Luttfring, 2015-07-16 This volume examines early modern representations of women's reproductive knowledge through new readings of plays, monstrous birth pamphlets, medical treatises, court records, histories, and more, which are often interpreted as depicting female reproductive bodies as passive, silenced objects of male control and critique. Luttfring argues instead that these texts represent women exercising epistemological control over reproduction through the stories they tell about their bodies and the ways they act these stories out, combining speech and physical performance into what Luttfring calls bodily narratives. The power of these bodily narratives extends beyond knowledge of individual bodies to include the ways that women's stories about reproduction shape the patriarchal identities of fathers, husbands, and kings. In the popular print and theater of early modern England, women's bodies, women's speech, and in particular women's speech about their bodies perform socially constitutive work, constructing legible narratives of lineage and inheritance, making and unmaking political alliances, shaping local economies, and defining/delimiting male socio-political authority in medical, royal, familial, judicial, and economic contexts. This book joins a growing critical discussion of how female reproductive bodies were used to represent socio-political concerns and will be of interest to students and scholars working in early modern literature and culture, women's history, and the history of medicine.

In the Kitchen, 1550-1800 Madeline Bassnett, Hillary Nunn, 2025-10-01 *In the Kitchen* insists that the preparation of food, whether imaginative, physical, or spatial, is central to a deeper understanding of early modern food cultures and practices. Devoted to the arts of cooking and medicine, early modern kitchens concentrated on producing, processing, and preserving materials necessary for nourishment and survival, yet they also fed social and economic networks and nurtured a sense of physical, spiritual, and political connection to surrounding lands and their cultures. The essays in this volume illuminate this expansive view of cooking and aspire to show how the kitchen's inner workings prove tightly, though often invisibly, interwoven with local, national, and increasingly global surroundings. Engaging with literary and historical methodologies,

including close reading recipe analysis and perspectives on gender class race and colonialism we begin to develop a shared theoretical and practical language for the art of cooking that combines the physical with the intellectual the local with the global and the domestic with the political

Entertaining Uncertainty in the Early Modern Theater Lauren Robertson,2023-02-09 Lauren Robertson's original study shows that the theater of Shakespeare and his contemporaries responded to the crises of knowledge that roiled through early modern England by rendering them spectacular Revealing the radical exciting instability of the early modern theater's representational practices Robertson uncovers the uncertainty that went to the heart of playgoing experience in this period Doubt was not merely the purview of Hamlet and other onstage characters but was in fact constitutive of spectators' imaginative participation in performance Within a culture in the midst of extreme epistemological upheaval the commercial theater licensed spectators' suspension among opposed possibilities transforming dubiety itself into exuberantly enjoyable spectacular show Robertson shows that the playhouse was a site for the entertainment of uncertainty in a double sense its pleasures made the very trial of unknowing possible

Desire, Performance, and Classification: Critical Perspectives on the Erotic Jessica R. Pfeffer,2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 In November 2011 artists professors students and scholars from around the world gathered in Prague Czech Republic to attempt to define what could be considered the erotic The conference sought submissions that addressed interactions of the erotic with history art literature practices performances pedagogy and sexuality among many others This wide focus brought together an intellectually rich meeting that interrogated the boundaries between eroticism sex and desire This volume represents a sampling of papers presented at the conference and the diverse focuses within these papers are indicative of the inter and trans disciplinary work that was presented Each work within this collection brings a fresh and unique approach to the erotic and in its own way tries to answer the question What is erotic
