Stalins Giants Kvi And Kvii:

The Stalin-Kaganovich Correspondence, 1931-36 R. W. Davies, Oleg Khlevniuk, E. A. Rees, Liudmila P. Kosheleva, Larisa A. Rogovaya, 2008-10-01 From 1931 to 1936 Stalin vacationed at his Black Sea residence for two to three months each year. While away from Moscow he relied on correspondence with his subordinates to receive information and watch over the work of the Politburo and the government. He gave orders and expressed his opinions. This book publishes for the first time translations of 177 handwritten letters and coded telegrams exchanged during this period between Stalin and his most highly trusted deputy Lazar Kaganovich. The unique and revealing collection of letters, all previously classified top secret, provides a dramatic account of the mainsprings of Soviet policy while Stalin was consolidating his position as personal dictator. The correspondence records his positions on major internal and foreign affairs decisions and reveals his opinions about fellow members of the Politburo and other senior figures. Written during the years of agricultural collectivization, forced industrialization, famine, repression, and Soviet rearmament in the face of threats from Germany and Japan, these letters constitute an unsurpassed historical resource for all students of the Stalin regime and Soviet history.

The Great Urals James R. Harris, 2018-10-18 Political histories of the Soviet Union have portrayed a powerful Kremlin leadership whose will was passively implemented by regional Party officials and institutions. Drawing on his research in recently opened archives in Moscow and the Urals, a vast territory that is a vital center of the Russian mining and metallurgy industries, James R. Harris overturns this view. He argues here that the regions have for centuries had strong identities and interests and that they cumulatively exerted a significant influence on Soviet policy making and on the evolution of the Soviet system. After tracing the development of local interests prior to the Revolution, Harris demonstrates that a desperate need for capital investment caused the Urals and other Soviet regions to press Moscow to increase the investment and production targets of the first five year plan. He provides conclusive evidence that local leaders established the pace for carrying out such radical policies as breakneck industrialization and the construction of forced labor camps. When the production targets could not be met, regional officials falsified data and blamed saboteurs for their shortfalls. Harris argues that such deception contributed to the personal and suspicious nature of Stalin's rule and to the beginning of his onslaught on the Party apparatus. Most of the region's communist leaders were executed during the Great Terror of 1936-38. In his conclusion, Harris measures the impact of their interests on the collapse of the communist system and the fate of reform under Gorbachev and Yeltsin.

Gulag Anne Applebaum, 2007-12-18 PULITZER PRIZE WINNER This magisterial and acclaimed history offers the first fully documented portrait of the Gulag from its origins in the Russian Revolution through its expansion under Stalin to its collapse in the era of glasnost. A tragic testimony to how evil ideologically inspired dictatorships can be. The New York Times. The Gulag, a vast array of Soviet concentration camps that held millions of political and criminal prisoners, was a system of repression and punishment that terrorized the entire society, embodying the worst tendencies of Soviet communism.

Applebaum intimately re creates what life was like in the camps and links them to the larger history of the Soviet Union Immediately recognized as a landmark and long overdue work of scholarship Gulag is an essential book for anyone who wishes to understand the history of the twentieth century **State Control in Soviet Russia** E.
