Stalkers For Young Readers:

Young People, Stalking Awareness and Domestic Abuse Maria Mellins, Rachael Wheatley, Caroline Flowers, 2023-09-12

This book addresses domestic abuse and stalking among young people in the UK and Ireland with a focus on intersectionality and lifestyle settings. In partnership with the Alice Ruggles Trust, this book draws on a wealth of expert contributions including those with lived experience, frontline services such as Paladin National Stalking Advocacy Service, charities Emily Test and Hollie Gazzard Trust, researchers of so-called honour-based abuse and online harms, and forensic psychologists who work with people who stalk. It begins with an overview of ways to recognise harmful behaviours including those carried out online. The discussion then moves on to methods and motivations of stalking and coercive control and the various lifestyle contexts including education, environments, young people in the workplace, and the role of the police and frontline support services in tackling these issues. It is a vital resource for undergraduate students across criminology, sociology, law, psychology, education, social justice, policing, and forensic psychology, as well as a combination of academic researchers and professionals working within stalking and domestic abuse support and prevention. This action-orientated book also includes Key Points and Discussion Questions in each chapter to direct student learning in the classroom and to create discussion points for wider readers.

Ex-Partner Stalking and Children Heng Choon (Oliver) Chan, Merja Laitinen, Anna Nikupeteri, 2024-12-23

Provides an authoritative overview of stalking behavior perpetrated by parents and its impacts on children. Stalking targeted at one of the child's parents by the other poses a major psychosocial and physical threat to children's wellbeing and security. Although interdisciplinary research on stalking has expanded in recent decades, intimate partner ex-partner stalking has been viewed as an adults-only problem. *Ex-Partner Stalking and Children* brings together scholars and practitioners from different disciplines in the field to examine ex-partner stalking as a psychosocial and criminological issue in children's and young people's lives. Providing both theoretical and practical perspectives, this comprehensive volume explores approaches for increasing awareness of parental stalking, addressing its impacts on children and young people, and advancing interventions and methods of support for them. Throughout the text, the authors challenge existing conceptions of intimate partner ex-partner stalking as a phenomenon that exists only between the partners rather than a form of gendered violence that creates a victimizing environment for the children. A novel contribution to both scholarly and practical understandings of ex-partner stalking, this important book addresses a gap in knowledge on the socially, ethically, and legally challenging phenomenon of cases when one parent is stalking the other. Offers insights and tools to help practitioners better recognize support and intervene in parental stalking situations involving children. Examines research findings on stalking behavior, including psychological and trauma perspectives. Discusses best practices and working methods, challenges in identifying the child's experiences and factors preventing children from receiving help. Recommends future directions in promoting children's and young people's rights in ex-partner stalking. Part of the acclaimed *Psycho-Criminology of Crime: Mental Health and the Law*
