just as in real classrooms other issues are woven through each case as well. The commentaries provide scholarly and sometimes contrasting perspectives and approaches through which readers might consider the issues presented in the cases. The commentaries represent only particular perspectives but readers are encouraged to explore and consider as many perspectives and issues as possible regarding each case. Each chapter includes helpful pedagogical features. New or critical concepts and terms listed at the beginning of each chapter alert readers to what might be unfamiliar vocabulary. Applications and Reflections pages help readers take an active part in analyzing, documenting, and talking about the particular issues portrayed in the case narratives. Using the questions on these pages, the cases and accompanying commentaries can be read and discussed as a whole class activity in small collaborative groups or by individuals. The questions can also be used by readers to guide their own case writing initiatives. Margin References direct readers to correlated readings for the strategies and parallel concepts mentioned in the cases and commentaries. Suggested readings can be discussed within the format of literacy study groups. Annotated Bibliographies at the end of each chapter help readers construct more in-depth knowledge for the instructional strategies and activities discussed in the teaching cases. The cases, commentaries, and pedagogical features in this distinctive text provide rich opportunities for readers to discover what they need to know and how they need to think in order to teach reading and language arts effectively and successfully.
