Serpent James H. Charlesworth,2010-01-01 The serpent of ancient times was more often associated with positive attributes like healing and eternal life than it was with negative meanings This groundbreaking book explores in plentiful detail the symbol of the serpent from 40 000 BCE to the present and from diverse regions in the world In doing so it emphasizes the creativity of the biblical authors use of symbols and argues that we must today reexamine our own archetypal conceptions with comparable creativity From publisher description **The Leviathan's Choice** James Michael Martinez,William D.

Drummond,J.G. Hart,2013-12-11 lhis volume was occasioned by the desire of its contributors to honor Robert Sokolowski on

his sixtieth birthday The desire first took form on the streets of an American metropolis when several of us while attending a philosophy conference were bemoaning the lack of passion for doing philosophy as we all conceived it In this expression of our discontent we all had a common exemplar in mind someone for whom the passion for the truthful and the good is embodied in every sentence of his rich writings Felicitously this very thinker was someone whom we can regard as manifesting in his person and life these same properties which his writings exhibit and pursue as luminous ideals As a result John Brough John Drummond and I came up with the idea that we hold our own conference and do philosophy as we envisage it and at the same time honor its foremost exemplary practitioner whose sixtieth birthday was the following year Immediately the idea took wings among the handful of us and the dreariness of that philosophy congress receded The first task of thinking of possible speakers was easy The issue of the venue for our symposium what I like to call the Sokofest had to be decided as well as the details of its realization

[The Leviathan's Whisper](#) Veronica Hess,2025-01-07 In the crushing darkness of the Mariana Trench a city whispers Iridessa a marvel of bioluminescent coral and geothermal energy has thrived for millennia hidden from the surface world But the ocean keeps secrets poorly Five years after the inexplicable loss of his research vessel Dr Kael Niretti returns to the trench drawn by anomalous energy readings He seeks answers and he needs Elara Vance a cryptographer whose fascination with ancient oceanic myths borders on obsession to find them Their descent into the abyss aboard the Chimera reveals a breathtaking spectacle Iridessa a city of light in a realm of eternal night But their arrival awakens the Leviathan a colossal being of bio engineered flesh and bone guardian of the trench and a force of nature Its awakening throws the delicate balance of the ocean into chaos Within Iridessa Councilor Valerius wrestles with the Leviathan's wrath Ancient prophecies speak of divine retribution but Kael and Elara offer a different explanation Iridessa's energy source the very heart of the planet is disrupting the delicate balance of life The Leviathan's code is not a threat but a desperate plea Trapped between ancient traditions and scientific revelations Kael and Elara race against time to convince the council that the Leviathan is not their enemy but a key to their survival They uncover a hidden archive revealing a forgotten civilization's catastrophic misuse of geothermal power a chilling echo of Iridessa's present They must re-establish a symbiotic connection with the Leviathan a connection severed by centuries of ignorance before the ocean's delicate ecosystem collapses As the council prepares for a ritualistic sacrifice Valerius faces an impossible choice uphold tradition or embrace the science of the outsiders His decision will determine not only Iridessa's fate but the future of the ocean itself Dive into the depths of *The Leviathan's Whisper* and uncover a world of ancient secrets scientific marvels and the desperate fight for a symbiotic future Will humanity listen to the whispers of the deep or repeat the mistakes of a forgotten past

The Guise of the Good Francesco Orsi,2023-04-14 This is the first book to trace the doctrine of the guise of the good throughout the history of Western philosophy It offers a chronological narrative exploring how the doctrine was formulated the arguments for and against it and the broader role it played in the thought of different philosophers In recent years there has been a rich

debate about whether value judgment or value perception must form an essential part of mental states such as emotions and desires and whether intentional actions must always be done for reasons that seem good to the agent This has sparked new theoretical interest in the classical doctrine of the guise of the good whenever we desire to do something we see it under the guise of the good that is we conceive of what we desire as good desirable or justified by reasons in some way or another This book offers a systematic historical treatment of the guise of the good The chapters span from Ancient and Medieval philosophy Socrates Plato Aristotle Augustine and Aquinas through the early modern period Hobbes Spinoza Locke Hume and Kant and up to Elizabeth Anscombe's rediscovery in the 20th century after a period of relative neglect Together they demonstrate how history can offer potential new models of the guise of the good or new arguments against it as well as to give a sense of how the guise of the good can bear on other philosophical issues The Guise of the Good A Philosophical History is an excellent resource for scholars and students working on the history of ethics philosophy of action and practical reason

Fabian Libertarianism Martin Cowen, 2016-04-26 The goal of this book is to persuade the reader that there is something very wrong in the political world The cause of the political malfunction is what we shall call Leviathan Learn why so many societal problems are intractable For example how is it that Thomas Edison's great invention the incandescent lightbulb is outlawed in America How is it that veterans beloved of Americans are denied treatment by the U S Department of Veterans Affairs VA unto death How is it that bad teachers are kept on indefinitely by a school system at full pay in isolated temporary reassignment centers rubber rooms in New York City The heretofore undiscovered answer is superorganisms having ultimate power over us Superorganisms exist They consist of individual human beings Superorganisms have lives separate from the individual human beings of which they are composed Superorganisms are epiphenomena of human social groups Examples of superorganisms include government bureaucracies like the United States Department of Veterans Affairs unions like the

National Education Association and corporations like General Electric In this book the name Leviathan is given to these superorganisms Leviathan as we will see is a deadly enemy We have a plan to defeat Leviathan but because Leviathan is virtually immortal in control of government education itself a sociopath and served in part by sociopaths our road is long and difficult We anticipate a one hundred years struggle There is hope Read this book to learn the plan Join our fight Help restore American freedom for our children and grandchildren
