The Great American Hemp Industry:

A History of the Hemp Industry in Kentucky James F. Hopkins, 2021-10-21 It is hard to believe that at one time burley tobacco was not the chief cash crop in Kentucky Yet for more than half a century hemp dominated the state s agricultural production James Hopkins surveys the hemp industry in Kentucky from its beginning through its complete demise at the end of World War II describing the processes of seeding and harvesting the plant and marketing manufactured goods made of the fiber With debate presently raging over the legalization of industrial hemp it is essential that an accurate portrait of this controversial resource be available Although originally published in 1951 Hopkins s work remains remarkably current as hemp manufacturing today is little changed from the practices the author describes This edition includes an updated bibliography of recent publications concerning the scientific economic and political facets of industrial hemp

American Hemp Jen Hobbs, 2019-04-16 If there ever was a time to build an American hemp industry the time is now In Jesse Ventura s Marijuana Manifesto former Minnesota Governor teamed up with Jen Hobbs to explain why it s time to fully legalize cannabis and end the War on Drugs Through their research it became clear that hemp needed its own manifesto Jen Hobbs takes up this torch in American Hemp December of 2018 marked a largely unprecedented victory for cannabis The 2018 Farm Bill passed and with it hemp became legal What the federal government listed for decades as a schedule 1 narcotic was finally classified as an agricultural crop giving great promise to the rise of a new American hemp industry Filled with catchall research American Hemp examines what this new domestic crop can be used for what makes it a superior product and what made it illegal in the first place the book also delves into the many health and medical benefits of the plant Hobbs weighs in on how hemp can improve existing industries from farming to energy to 3D printing plus how it can make a serious impact on climate change by removing toxins from the soil and by decreasing our dependence on plastics and fossil fuels American Hemp lays out where we are as a nation on expanding this entirely new yet ancient domestic industry while optimistically reasoning that by sowing hemp we can grow a better future and save the planet in the process Hemp for Victory Richard M. Davis, 2009 In a report by the world s top environmental scientists the only thing listed that mankind can do to have an impact on changing weather patterns is to reduce the excess CO2 levels from the air Hemp for Victory A Global Warming Solution is a key for reducing the effects of global warming using hemp Why hemp In this book you ll learn hemp is a biomass champion breathing in more carbon dioxide the most abundant greenhouse gas than any other plant This carbon dioxide is turned into wood and fiber by photosynthesis Hemp wood takes the pressure off our forests by making paper and building materials like pressboard Hemp is the best plant at consuming the greenhouse gas CO2 a step the world leading scientists say is critical to at least slowing down the dramatic effects of global warming Remove the cause CO2 pollution and the effect global warming can be reduced if not healed Hemp can do all the jobs fossil fuels do now When used as a biofuel hemp replaces toxic energy i e fossil fuels nuclear power with clean sustainable energy Hemp biofuel can be processed to run

any engine heat or cool any building run any factory and eliminate the greenhouse gases and pollution that come from modern energy sources The Museum has thousands of hemp exhibits both on line and in the private wing many included in this book The Museum s founder and curator Richard M Davis wrote this dynamic piece of literature that gives chapter and verse of how to best re hemp the planet This book is based on the museum s extensive research on hemp and the environment The museum is also developing a Hemp for Victory plan to successfully use hemp to help solve the survival problem of global warming by coordinating famers with growing and market information A 20% recreational hemp tax plan is in development to finance the program and help deal with the current impact of global warming i e Hurricane Katrina Back cover
