The great leap John Brooks,1966 The Great Boom 1950-2000 Robert Sobel,2016-02-09 In The Great Boom historian Robert Sobel tells the fascinating story of the last 50 years when American entrepreneurs visionaries and ordinary citizens transformed our depression and war exhausted society into today s economic powerhouse As America s G I s returned home from World War II many of the nation s best minds predicted a new depression yet exactly the opposite occurred Jobs were plentiful in retooled factories swamped with orders from pent up demand Tens of thousands of families moved out of cities into affordable suburban homes built by William Levitt and his imitators They bought cars televisions and air conditioners by the millions And they took to the nation s roads and new interstate highways the largest public works project in world history where Kemmons Wilson of Holiday Inns Ray Kroc of McDonalds and other start up entrepreneurs soon catered to a mobile populace with food and lodgings for leisure time vacationers Americans and their families began to channel savings into new opportunities Credit cards democratized purchasing power while early mutual funds found growing numbers of investors to fuel the first postwar bull market in the go go 60s At the same time the continuing boom enriched the fabric of social and cultural life A college education became a must on the highway to upward mobility high tech industries arose with astonishing new ways of conducting business electronically and an unprecedented 49 million families had become investors when the 1981 2000 stock market boom reached 10 000 on the Dow The Great Boom is the first major book to portray the great wave of homegrown entrepreneurs as post war heroes in the complete remaking and revitalizing of America All that plus the creation of unprecedented wealth or themselves for the nation for tens of millions of citizens all in five short drama filled decades **OE [publication]** ,1968 *Catalog of Copyright Entries. Edgar Snow John Maxwell Hamilton,2003-09-25 Edgar Snow 1905 1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he

broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post* his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world

What America Read Gordon Hutner,2009-11-05 Despite the vigorous study of modern American fiction today s readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class s confrontation with modernity Reading these novels now offers an extraordinary opportunity to witness debates about what kind of nation America would become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered

Invasion of the Mind Snatchers Eric Burns,2010-06-17 When the first television was demonstrated in 1927 a headline in *The New York Times* read *Like a Photo Come to Life* It was a momentous occasion But the power of television wasn t fully harnessed until the 1950s when the medium was as Eric Burns says At its most preoccupying its most life altering And Burns a former NBC News correspondent who is an Emmy winner for his broadcast writing knows about the impact of television *Invasion of the Mind Snatchers* chronicles the influence of television that was watched daily by the baby boomer generation As kids became spellbound by *Howdy Doody* and *The Ed Sullivan Show* Burns reveals they often acted out their favorite programs Likewise they purchased the merchandise being promoted by performers and became fascinated by the personalities they saw on screen often emulating their behavior It was the first generation raised by TV and Burns looks at both the promise of broadcasting as espoused by the inventors and how that promise was both redefined and lost by the corporations who helped to spread the technology Yet Burns also contextualizes the social cultural and political events that helped shape the Fifties from Sputnik and the Rosenberg trial to Senator Joseph McCarthy s Red Scare In doing so he charts the effect of television on politics religion race and sex and how the medium provided a persuasive message to the young
