The Origins of Judaism, Christianity and Islam John Pickard, 2021-12-22 There has never been a more important time for a study of the social economic and political origins of Judaism Christianity and Islam three important world religions which share a common root This book takes as its starting point the idea that gods angels miracles and other supernatural phenomena do not exist in the real world and therefore cannot explain the origins of these faiths It looks instead at the material conditions at appropriate periods in antiquity and the social and economic forces at work and it examines the historicity of key figures like Moses Jesus and Mohammed This is a unique book which draws on the research knowledge and expertise of hundreds of historians archaeologists and scholars to create a synthesis that is completely coherent and at the same time is based on real world social conditions It is a book by a non believer for other non believers and it will be a revelatory read even to those already of an atheist agnostic or secularist persuasion
