The Green Clinic:

Poor Women, Powerful Men Martha C Ward, 2019-07-09 *Poor Women Powerful Men* chronicles the achievements and subsequent failure of the Louisiana Family Health Foundation the most extensive family planning program ever to operate in the United States Martha C Ward's even handed account reveals the mechanisms of politics poverty and public health policies at work in the perpetual controversies surrounding reproductive rights and the delivery of health care services to the poor Ward's book begins in the early 1960s when Louisiana was among the most underdeveloped states and ranked at the bottom of all scales measuring illiteracy illegitimacy and infant mortality Despite the free statewide Charity Hospital system many routine preventive medical and public health services were not available to poor women and their children particularly if they were black But in the mid 1960s a visionary group of doctors and health care practitioners began to clear the hurdles erected by law church and the medical political establishment By 1970 they had set up the first statewide family planning program for poor people in the United States The Louisiana experiment was a spectacular success The Ford Rockefeller and Kellogg Foundations poured millions of dollars into the program The Great Society and War on Poverty programs placed a high priority on the health of poor mothers and infants With the help of the population lobby including Planned Parenthood and the Agency for International Development the Family Health Foundation moved into Latin America and other developing areas But in 1974 the bubble burst Accusations of fiscal mismanagement fraudulent statistics patronage and political payoffs led to federal indictments and jail sentences for top officials Poor women and powerful men the black and white communities and the liberal and conservative medical factions were pitted against each other With the collapse of the program methods for handling the epidemic of adolescent pregnancies and the high infant mortality rate reverted to the state bureaucracies *Poor Women Powerful Men* is the first book length account of the Louisiana experiment In a clear and dispassionate voice Ward demonstrates that many of the questions raised by the experiment persist Is family planning an answer to the cycle of poverty teenage pregnancies and infant mortality How can the conflict between private and public delivery of medical care be resolved Where do the reproductive rights of women fit into governmentally supported birth control programs We seem no closer today to answering these questions than the Louisiana Family Health Foundation was more than a decade ago

The Green Cross of Kafira Imbuga, Francis, 2014-01-16 In his last play published posthumously the late Francis Imbuga presents the dramatic dialogue of his characters as mind games In addition to using a narrator Sikia Macho to fill us in on the broken politics of Kafira centring around detention without trial Imbuga deliberately delays the inciting action the formation of the Green Party of Kafira which then challenges the hitherto political monolith called the National Party The candidate of the new party former detainee Pastor Mgei wins the election and thereby dethrones the so called Chief of Chiefs In *The Green Cross of Kafira* Imbuga with a renewed sense of urgency addresses the theme of dictatorship in Africa and completes his trilogy of the Kafira plays which begins with *Betrayal in the city* followed by *Man of Kafira* *Elderhood*

Louise Aronson, 2019-06-11 Finalist for the Pulitzer Prize in General Nonfiction A New York Times Bestseller Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction Winner of the WSU AOS Bonner Book Award Winner of the 2022 At Home With Growing Older Impact Award As revelatory as Atul Gawande's Being Mortal physician and award winning author Louise Aronson's Elderhood is an essential empathetic look at a vital but often disparaged stage of life For more than 5 000 years old has been defined as beginning between the ages of 60 and 70 That means most people alive today will spend more years in elderhood than in childhood and many will be elders for 40 years or more Yet at the very moment that humans are living longer than ever before we've made old age into a disease a condition to be dreaded denigrated neglected and denied Reminiscent of Oliver Sacks noted Harvard trained geriatrician Louise Aronson uses stories from her quarter century of caring for patients and draws from history science literature popular culture and her own life to weave a vision of old age that's neither nightmare nor utopian fantasy a vision full of joy wonder frustration outrage and hope about aging medicine and humanity itself Elderhood is for anyone who is in the author's own words an aging i.e. still breathing human being

Jamail, 2016-12-05 The critically acclaimed account of life in Iraq under US occupation with a new afterword The Green Wound Contract Philip Atlee, 2021-02-16 The grand spy chase novel highly successful and realistic that introduced the international operative with a lethal touch Publisher's Weekly Secret agent Joe Gall has a puzzle to put together that stretches from the streets of Laredo Texas to the steamy island of Trinidad and along the way he must deal with a New Orleans nun with some surprising fighting skills as well as civil unrest in a small southern town As he battles bad guys using all the smarts and survival tactics he learned from the CIA there are two beautiful women who may hold the answers but Gall has to start

asking the right questions in the debut thriller of this action packed series that would go on to earn an Edgar Award nomination I admire Philip Atlee s writing tremendously Raymond Chandler The Black and the Green Ada Nicolescu,2013-02-15 This sequel to Prelude in Black and Green tells the story of the Steins and their relativesa Jewish family in Romaniathat in 1940 have to live with Fascism and the war What will their future be Will they survive How will they cope with the many challenges facing them These questions are on everybodys mind **180 Days in the Green Zone** Latif Al-Bayati,2014 The book covers actual experiences and reflections through the diaries of a UN Staff Member stationed in the Green Zone also called the International Zone in Baghdad Iraq The original staff s mission was planned for 180 days yet it was extended later to cover a longer period from January 2006 to September 2007 It is a story about the daily life of the author colleagues and counterparts national and international staffs working with the UN other International Agencies Diplomatic Missions as well as officers parliamentarians and employees of the Iraqi Government during tough times in an unstable country While all international staffs were not allowed to leave the well fortified and safe grounds of the Green Zone except in very limited cases and when given prior security authorization always escorted with heavily armed professional military force the author had the advantage and flexibility of residing inside the Green Zone yet having at the same time the freedom as an Iraqi national to leave unescorted to the dangerous Red Zone Therefore he was in a position to reflect the tough and risky daily life of suffering Iraqis bearing the brunt due to security deterioration as well as other hardships and lack of basic needs and services Mentioning real names of certain UN and Iraqi high ranking national and international officials was necessary for the true credible sequence of events with no intention of compromising any one but just to reflect the genuine happenings during that period of time in the Green Zone the Red Zone and in Iraq from the author s perspective about what actually happened in a story worth to be told
