The Great Duke Or The Invincible General:

The Great Duke Arthur Bryant, 1971 This comprehensive and moving portrait of the man and his achievements concentrates on Wellington's military career ending with Waterloo *Great Warrior Leaders/thinkers*, 1989

Wellington's Peninsular War Generals & Their Battles T. A. Heathcote, 2010-06-19 Wellington's achievements in the Peninsular War cannot be overestimated At the outset in 1808 Napoleon and his Marshals appeared unstoppable By the close Wellington and his Army had convincingly defeated the French and taken the war across the Pyrenees into France itself He and his Generals had waged a hugely successful campaign both by conventional means and guerrilla warfare This book contains the pithy biographies of some forty senior officers who served Wellington in the majority of cases so ably during this six year war Many had experience of battle prior to the Peninsular and went on to greater heights thereafter There is a section summarizing the major engagements that this band of brothers took part in The book is arranged in alphabetical order and each thoroughly researched entry places its subject's life in his historical and political context The result is a highly entertaining informative and authoritative book The Dark Path Williamson Murray, 2024-10-22 From an esteemed military historian a sweeping history of the revolutions in war fighting that have shaped the modern world Heraclitus wrote that war is the father of all and it has formed much of the modern world Although the fundamental nature of war has not altered over the centuries constant change innovation and adaptation have repeatedly reshaped how wars are fought in the West Revolutions in military practice cannot be separated from larger social developments in areas like logistics finance and economics and the culture of military organizations In The Dark Path Williamson Murray argues that the history of warfare in the West hinged on five revolutions which both reflected the social political and economic conditions that produced them and in turn influenced how those conditions evolved These five key turning points are the advent of the modern state which formed bureaucracies and professional militaries the Industrial Revolution which produced the financial and industrial means to sustain and equip large armies the French Revolution which provided the ideological basis needed to sustain armies through continent sized wars the merging of the Industrial and French Revolutions in the U S Civil War and the accelerating integration of technological advancement financial capacity ideology and government that unleashed the modern capacity for total warfare An ambitious work of synthesis this book shows how the world continually re creates war and how war in turn continually re creates the world *The Coalitions Against Napoleon* William Nester, 2023-06-30 Britain alone could not hope to defeat the might of Napoleonic France which through enforced conscription had become a nation in arms But British leaders had a long history of forging alliances to counter their rivals and when revolution ravaged France in 1793 and a levée en masse raised a huge patriotic army it was through a coalition of monarchies that French ambitions were restrained a coalition made possible by British gold and British industry When Napoleon seized the reins of power in France he too introduced conscription and once again it was a succession of British led and funded coalitions which eventually brought

Napoleon to his knees During the years 1793 to 1815 the British Government formed and underwrote seven coalitions that cost Britain 1 657 854 518 as the national debt tripled from 290 000 000 to 860 000 000 Of that British subsidies to around thirty allies amounted to 65 830 228 along with staggering amounts of war supplies mass produced by British factories and shipped to allies Britain's leading role in Europe did not end with Waterloo Immediately following the Sixth Coalition and amidst the Seventh Coalition Britain constructed with the other great powers a security system of cooperation and consultation called the Concert of Europe that prevented a serious war among them for two generations Britain's power to underwrite those coalitions came from a related series of revolutions agrarian mercantile financial technological manufacturing cultural and political that developed over the proceeding century For many reasons that happened in Britain and not elsewhere Of them cultural values may be most crucial Constraints were fewer and incentives greater for enterprising Britons to invest invent buy and sell in ways that enriched themselves and their nation more than elsewhere During the eighteenth century Britain's leaders mastered a virtuous power cycle of victorious wars expanding production captured territories and markets and more income During a speech before Congress in December 1940 President Franklin D Roosevelt called on Americans to be an arsenal of democracy to aid Britain and other countries threatened by the imperialistic fascist powers Britain played exactly the same role during the Napoleonic era The Coalitions Against Napoleon explores how Britain developed and asserted the financial manufacturing and military power to achieve that goal

Britain's Rise to Global Superpower in the Age of Napoleon William Nester, 2020-12-14 The first study to explore all Britain's key land and sea campaigns from 1793 to 1815 and the two military geniuses who vanquished France The art of power consists of getting what one wants That is never more challenging than when a nation is at war Britain fought a nearly nonstop war against first revolutionary then Napoleonic France from 1793 to 1815 During those twenty two years the government formed financed and led seven coalitions against France The French inflicted humiliating defeats on the first five Eventually Britain and its allies prevailed not once but twice by vanquishing Napoleon temporarily in 1814 and definitively in 1815 French revolutionaries had created a new form of warfare which Napoleon perfected Never before had a government mobilized so much of a realm's manpower industry finance and patriotism nor under Napoleon wielded it more effectively and ruthlessly to pulverize and conquer one's enemies Britain struggled up a blood soaked learning curve to master this new form of warfare With time the British made the most of their natural strategic and economic advantages Britons were relatively secure and prosperous in their island realm British merchants manufacturers and financiers dominated global markets The Royal Navy not only ruled the waves that lapped against the nation's shores but those plowed by international commerce around the world Yet even with those assets victory was not inevitable Two military geniuses are the most vital reasons why Britain and its allies vanquished France when and how they did General Arthur Wellesley the Duke of Wellington and Admiral Horatio Nelson respectively mastered warfare on land and at sea Of the hundreds of books on the

era none before has explored all of Britain's land and sea campaigns from the first in 1793 to the last in 1815 This vividly written meticulously researched book lets readers experience each level of war from the debates over grand strategy in London to the horrors of combat engulfing soldiers and sailors in distant lands and seas Haunting voices of participants echo from two centuries ago culled from speeches diaries and letters Britain's Rise to Global Superpower in the Age of Napoleon reveals how decisively or disastrously the British army and navy wielded the art of military power during the Age of Revolution and Napoleon

Focus On: 100 Most Popular Knights of the Garter Wikipedia contributors, **The Letters of Sarah Harriet Burney** Sarah Harriet Burney,1997 This scholarly edition presents for the first time all of the known surviving letters of British novelist Sarah Harriet Burney 1772-1884 The overwhelming majority of these letters more than ninety percent have never before been published Burney's accomplishments says Lorna J Clark have been unjustly overlooked She published five works of fiction between 1796 and 1839 all of which met with reasonable success including *Traits of Nature* 1812 which sold out within three months These letters position Burney among her fellow women writers and shed light on her relations with her publisher and her ambivalence toward her own work and her readership Her lively observation of the literary scene evinces the range and scope of her reading as well as her awareness of literary trends and developments Burney was for example remarkably prescient in recognizing and praising from the first the talent of Jane Austen and met several of the authors of her day A challenging new perspective on family matters also emerges in the letters The youngest child of the second marriage of Charles Burney and the only daughter to remain unmarried Sarah Harriet had the unenviable task of caring for her father in his later years Her letters reveal a darker side of Dr Burney and also help to round out our image of a more favored daughter Sarah Harriet's half sister and fellow novelist Frances Burney As literature Clark observes Burney's letters are arguably her best work Thoroughly versed in the epistolary arts she sought always to amuse and entertain her correspondents Burney ultimately emerges as a quiet but heroic single woman relegated to the margins of society where she struggled for independence and self respect Displaying literary qualities and a lively sense of humor the letters provide a fascinating insight into the literary political and social life of the day

A Hero For All Times Peter Lees,2023-12-30 In September 1914 Neville Marshall gave up a successful horse treatment practice to join first the Belgian and then the British Army His diary dormant in family archives for 105 years and letters describe his tumultuous war service An Irish Guardsman who was seconded to three Lancashire battalions he

rose in rank from Lieutenant to Acting Lieutenant Colonel Wounded at least nine times and awarded five gallantry medals he revelled as well as suffered in his encounters with the German enemy Outspoken on the conduct of the war he was without doubt a gifted and courageous leader who led from the front Fiercely loyal to his men he earned their respect and affection Yet with soldiers who were uncaring of their own states of body and mind or lacking physical fitness and self respect he worked tirelessly to restore their morale and battle readiness through strict disciplinary regimes While undoubtedly a patriot and a hero Marshall VC was not without character flaws impetuously rushing to judgements In this superbly researched book his diaries and letters are supplemented from a wide range of archival and other sources The result is no ordinary biography of an extraordinary officer who gave his life for his country
