Sharpe, 2007-08-10 Early one May morning in 1874 in the hills above Williamsburg Massachusetts a reservoir dam suddenly burst sending an avalanche of water down a narrow river valley lined with factories and farms In just thirty minutes the Mill River flood left 139 people dead and 740 homeless and a nation wondering how this terrible calamity had happened In this compelling tale of a man made disaster peopled with everyday heroes and arrogant scoundrels Elizabeth Sharpe opens a rare window into industry and village life in nineteenth century New England a time when dam failures and other industrial accidents were widespread and laws favored factory owners rather than factory workers In the Mill Valley the townsfolk depended upon generally benevolent patriarchs who assured them that the dam was safe when most people could see that it was not The story of the Mill River flood is the story of those townsfolk of George Cheney the dam keeper whose repeated warnings about leaks in the dam had been ignored by the mill owners of his wife Elizabeth who watched in disbelief as the dam burst open from the bottom of Isabell Hayden the mother who saw her young son swept away in the river's torrent and of Fred Howard a box maker who spent the days after the flood searching for bodies burying friends and waiting to see if the button factory he relied upon for his livelihood would be rebuilt It is also the story of the well meaning but overconfident businessmen who built the dam of Onslow Spelman the manufacturer who dismissed the dam keeper's flood warning irrationally insisting that the dam could not break of Lucius Fenn and Joel Bassett the engineer and contractor whose roles in the construction of the dam would be questioned during the public inquest into the causes of the flood of William Skinner the factory owner who struggled to decide whether or not to rebuild his silk factory in the village that bore his name and of many others The flood highlighted class divisions between worker and owner as well as the disorganized state of professional engineering then still in its infancy As the flood exposed the dangers of allowing mill owners who were not trained engineers to design their own dam legislation to regulate the building of reservoir dams in Massachusetts was enacted for the first time Engineers politicians and business owners battled over control of the reform measures to prevent similar tragedies yet saw them continually repeated In the Shadow of the Dam is the story of an event that reshaped a society Told through the eyes of villagers like Collins Graves lauded as a hero for his desperate ride through the valley to warn people of the impending flood and industrialists like Joel Hayden Jr entrusted with the responsibility of disaster relief despite his culpability in failing to maintain the leaking dam In the Shadow of the Dam is a history of our uneasy relationship with industrial progress and a riveting narrative of a tragic disaster in small town Massachusetts **Invitation to Vernacular Architecture** Thomas Carter, Elizabeth C. Cromley, 2005 Review Invitation to Vernacular Architecture A Guide to the Study of Ordinary Buildings and Landscapes is a manual for exploring and interpreting vernacular architecture the common buildings of particular regions and time periods Thomas Carter and Elizabeth Collins Cromley provide a comprehensive introduction to the field Rich with illustrations and written in a clear and jargon free style Invitation to Vernacular Architecture is an ideal text for
