The Great School Wars:

The Great School Wars Diane Ravitch,1988 **The Great School Wars** Diane Ravitch,2000-07-14 Named one of the Ten Best Books about New York City by the New York Times **The Great School Wars** Diane Ravitch,1988-01-01 Details the better confrontations and issues that have affected the modern history of the New York City public school system *The Great School Wars* Diane Ravitch,1974 **The Strike That Changed New York** Jerald E. Podair,2003-01-01 This admirably balanced book will most likely stand as the definitive account of the Ocean Hill Brownsville crisis for some time engrossing New York History Winner of the Allan Nevins Prize awarded by the Society of American Historians On May 9 1968 junior high school teacher Fred Nauman received a letter that would change the history of New York City It informed him that he had been fired from his job Eighteen other educators in the Ocean Hill Brownsville area of Brooklyn received similar letters that day The dismissed educators were white The local school board that fired them was predominantly African American The crisis that the firings provoked became the most racially divisive moment in the city in more than a century sparking three teachers strikes and increasingly angry confrontations between black and white New Yorkers at bargaining tables on picket lines and in the streets This superb book revisits the Ocean Hill Brownsville crisis a watershed in modern New York City race relations Jerald E Podair connects the conflict with the sociocultural history of the city and explores its legacy The book is a powerful sobering tale of racial misunderstanding and fear and a New York story with national implications Deftly weaves a complicated story about class and race labor and civil rights There are no faultless heroes or thoroughly evil villains here only human beings struggling to make sense of their world and achieve justice as they understand it Choice Compelling Washington Monthly Detroit's "Great School Wars" David L. Angus,1980 The Urban School System of the Future Andy Smarick,2012-10-12 For more than two generations the traditional urban school system the district has utterly failed to do its job prepare its students for a lifetime of success Millions and millions of boys and girls have suffered the grievous consequences The district is irreparably broken For the sake of today s and tomorrow s inner city kids it must be replaced The Urban School System of the Future argues that vastly better results can be realized through the creation of a new type of organization that properly manages a city s portfolio of schools using the revolutionary principles of chartering It will ensure that new schools are regularly created that great schools are expanded and replicated that persistently failing schools are closed and that families have access to an array of high quality options This new entity will focus exclusively on school performance meaning among other things our cities can thoughtfully integrate their traditional public charter public and private schools into a single high functioning k 12 system For decades the district has produced the most heartbreaking results for already at risk kids The Urban School System of the Future explains how we can finally turn the tide and create dynamic responsive high performing self improving urban school systems that fulfill the promise of public education *The Common School Awakening* David Komline,2020-08-24 A statue of Horace Mann erected in front of the

Boston State House in 1863 declares him the Father of the American Public School System For over a century and a half most narratives about early American education have taken this epithet as the truth As Mann looms over the Boston Common so he has also loomed over discussions of early American schooling Other scholarship has emphasized economic factors as the main reason for the emergence of public schools The Common School Awakening offers a new narrative about the rise of public schools in America that counters these conceptions In this book David Komline explains how a broad and distinctly American religious consensus emerged in the first half of the nineteenth century allowing people from across the religious spectrum to cooperate in systematizing and professionalizing America s schools in an effort to Christianize the country At the height of this movement several states introduced state sponsored teacher training colleges and concentrated government oversight of schools in offices such as the one held by Mann Shortly thereafter the religious consensus that had served as the foundation for this common school system disintegrated But the system itself remained the legacy of not just one man but of a whole network of reformers who put into motion a transatlantic and transdenominational religious movement the Common School Awakening

The New Left and Labor in 1960s Peter B. Levy, 2024-04-22 It is a powerful story the relationship between the 1960s New Left and organized labor was summed up by hardhats confronting students and others over US involvement in Vietnam But the real story goes beyond the Love It or Leave It signs and melees involving blue collar types attacking protesters Peter B Levy challenges these images by exploring the complex relationship between the two groups Early in the 1960s the New Left and labor had cooperated to fight for civil rights and anti poverty programs But diverging opinions on the Vietnam War created a schism that divided these one time allies Levy shows how the war combined with the emergence of the black power movement and the blossoming of the counterculture drove a permanent wedge between the two sides and produced the polarization that remains to this day

American School Reform Maurice R. Berube, 1994-12-30 Berube analyzes the three great educational reform movements in the United States He shows how they have been shaped by outside societal forces Progressive Education was an offshoot of the Progressive Movement Equity Reform in the 1960s was influenced by the Civil Rights Movement Excellence Reform in the last decade was a response to foreign economic competition Within each matrix common characteristics of each movement emerge Progressive Education with its emphasis on critical thinking and child centered schools set the stage for what was to follow Equity Reform sought to complete the unfinished agenda of Progressive Education in educating the poor Excellence Reform repudiated both in the name of higher standards and content specific curriculums The emergence of sophisticated educational research since the 1960s has influenced educational policy to be more research based Berube provides a necessary overview of the great movements in school reform over the last century
