 Earth Diet Earth Daryl Conant M. Ed, 2010-04 Earth is a complex and mysterious planet Its origin and purpose are not
 truly known What we do know is that human civilization has to depend on the Earth for survival The human being has been
 living off the Earth ever since the beginning of man's first breath The Earth is designed to provide all the vital nutrients
 animals need to live by However due to the development of industrial factors and processed food the vital nutrients of Earth
 are being compromised Illness organ disease cancer psychological disorders and obesity are growing in astronomical
 proportions All of these situations are a direct result of poor nutrition processed foods and the depletion of the Earth's vital
 nutrient supply Diet Earth is a revolutionary change in the thinking of human nutrition Daryl Conant teaches methods in how
 to eat when to eat why we need to eat and how important it is to eat raw nutrient rich organic foods I believe that we have to
 take a stand against poor nutrition in America We are losing the battle against obesity As long as processed food refined
 sugar hydrogenated fats trans fatty acids excitotoxins additives and preservatives remain the staple of the American diet
 human health will continue to worsen The true answer for solving our out of control health care system is to teach Americans
 the truth about food Diet Earth is my contribution to society in developing greater nutritional consciousness Bon Appetite
