The Greeks And Romans Their Life And Customs:

The Life of the Greeks and Romans Described from Antique Monuments E.K. Guhl, **Life and Thought in the Greek and Roman World** M. Cary, T.J. Haarhof, 2024-08-28 *Life and Thought in the Greek and Roman World* 1961 aims to provide a brief but comprehensive outline sketch of Greek and Roman civilization. It describes the geographic, political, and social background of that civilization and sets forth its main achievements in the fields of language and literature, scholarship and education, science and philosophy, art and religion. The authors have endeavoured throughout to present Greek and Roman civilization as an organic whole. *The daily life of the Greeks and Romans as illustrated in the New York. Metropolitan Museum of Art*, 1924

The Romans Ernst Guhl, Wilhelm Koner, 1994 The great Roman monuments go a long way to providing an insight into this once powerful and highly developed culture. But while we may marvel at the ingenuity of their aqueducts and viaducts, the splendour of their amphitheatres and the beauty of their mosaics and ornamentation, what do we know about the daily lives of the people who designed and built them? How did they furnish and light their houses? What did they eat and wear? What actually went on in the amphitheatres, gymnasias and baths? The authors have used the architectural achievements of the Romans as a basis for unravelling the intricacies of this society. Back cover

Aristotle's Best Regime Jeff Chuska, 2000 Aristotle in his *Politics* devotes a large portion to his theory of the best regime. Renewed interest in this idea along with scholarly disagreements on what Aristotle says make this reading an important contribution to classical political studies. Chuska's approach is a defense of Aristotle's theory, showing it to be necessary and helpful despite controversy over his purportedly narrow-minded discussions of non-Greeks. Relying on the text of *Politics* as well as Greek history and other works by Aristotle, Chuska expands on the theory of the best city.

The Censors as Guardians of Public and Family Life in the Roman Republic Anna Tarwacka, 2024-10-08 This volume explores the effects of the Roman censorial *mark nota censoria* and the influence of censorial regulations on the development of written law in ancient Rome. The censor was one of the most fascinating legal institutions of Republican Rome. One of the most colourful and anecdotal areas of censorial activities was in the upkeep of public morals, *regimen morum*, through which censors controlled private even intimate aspects of Roman life. Although the office of the censor has been studied by various scholars from prosopographical, historical, and social perspectives, there has been no comprehensive study of its impact on the development of written law. This book aims to fill the gap by providing an overview of the applications of the *nota censoria* to demonstrate its impact on the development of numerous regulations in the field of private and public laws during the Republican and Imperial periods. This book explores the relationship between magistrate law, *ius honorarium*, and *regimen morum*, and how the activities of the censors in this area influenced the formation of praetorian edicts and later legislation during the Principate period, most notably the marriage laws of Augustus. By examining the influence of the censor and the censorial *nota* in these spheres, readers will gain a new understanding of the overall significance of the censor's office in shaping the Roman legal order. The

Censors as Guardians of Public and Family Life in the Roman Republic will be of interest to students and scholars of Roman law in both the Republican and Imperial periods as well as to those interested in Roman moral attitudes and society more broadly
