

There is a revolution coming. It will not be like revolutions of the past. It will originate with the individual and with culture, and it will change the political structure only as its final act. It will not require violence to succeed, and it cannot be successfully resisted by violence. This is the revolution of the new generation.

Encyclopedia of the Sixties Abbe A. Debolt,James S. Baugess,2011-12-12 Comedian Robin Williams said that if you
remember the 60s you weren't there This encyclopedia documents the people places movements and culture of that
memorable decade for those who lived it and those who came after Encyclopedia of the Sixties A Decade of Culture and
Counterculture surveys the 1960s from January 1960 to December 1969 Nearly 500 entries cover everything from the British
television cult classic The Avengers to the Vietnam War and the civil rights movement The two volume work also includes
biographies of artists architects authors statesmen military leaders and cinematic stars concentrating on what each
individual accomplished during the 1960s with brief postscripts of their lives beyond the period There was much more to the
Sixties than flower power and LSD and the entries in this encyclopedia were compiled with an eye to providing a balanced
view of the decade Thus unlike works that emphasize only the radical and revolutionary aspects of the period to the exclusion
of everything else these volumes include the political and cultural Right taking a more academic than nostalgic approach and
helping to fill a gap in the popular understanding of the era **Embodiment of a Nation** Cecelia TICHU,Cecelia
