The Grid And The Village Losing Electricity Finding Community Surviving Disaster:

The Grid and the Village Stephen Doheny-Farina, 2008-10-01 This book focuses on electric grids and tells the stories about two villages separated by time connected by proximity and united by the challenges of maintaining a community under duress It provides a glimpse of what it took to build the kind of grids that made America the grids which connect people to one another and is told through the experiences of some of the people who sacrificed the most to build the grids

When the Lights Went Out David E. Nye, 2010-01-29 Blackouts whether they result from military planning network failure human error or terrorism offer snapshots of electricity's increasingly central role in American society Where were you when the lights went out At home during a thunderstorm During the Great Northeastern Blackout of 1965 In California when rolling blackouts hit in 2000 In 2003 when a cascading power failure left fifty million people without electricity We often remember vividly our time in the dark In *When the Lights Went Out* David Nye views power outages in America from 1935 to the present not simply as technical failures but variously as military tactic social disruption crisis in the networked city outcome of political and economic decisions sudden encounter with sublimity and memories enshrined in photographs Our electrically lit up life is so natural to us that when the lights go off the darkness seems abnormal Nye looks at America's development of its electrical grid which made large scale power failures possible and a series of blackouts from military blackouts to the greenout exemplified by the new tradition of Earth Hour a voluntary reduction organized by environmental organizations Blackouts writes Nye are breaks in the flow of social time that reveal much about the trajectory of American history Each time one occurs Americans confront their essential condition not as isolated individuals but as a community that increasingly binds itself together with electrical wires and signals

Battleground: Environment Robin Morris Collin, 2008-07-30 The environment inflames passions in people on all points of the political spectrum Controversies over such issues as the rise of cancer in industrialized countries climate change and urban sprawl have skyrocketed as we recognize the impact that humans have on the environment Many people become immersed in these controversies at a local level before they know much about the topic the nuances of many environmental conflicts are often overlooked as the media focuses on the adversarial nature of the conflict This reference resource provides students teachers librarians and citizens as a whole with the necessary first step in understanding these hot button issues Each entry identifies the issue involved who was holding various points of view or positions where and when the conflict occurred and explains the cultural social and political context and dimensions of the conflict Battleground Environment provides in depth analysis of over 100 of the most controversial topics involving the environment including childhood asthma the Kyoto Summit and Treaty smart growth the Three Gorges Dam in China and genetically modified food Entries include descriptions of public policies and discussions of the future of the controversy Each entry concludes with cross references and a short relevant bibliography suitable for student research The resource includes numerous sidebars that discuss in detail particular local controversies that illuminate the complexity of the

topics discussed **Negotiating a River** Daniel MacFarlane, 2014-03-01 A megaproject half a century in the making the planning and building of the St Lawrence Seaway and Power Project is one of the defining episodes in North American history Possibly the largest construction undertaking in Canadian history and one of the most ambitious borderlands projects ever embarked upon by two countries it also required decades of negotiation and the controversial relocation of thousands of people Negotiating a River looks at the profound impacts of this megaproject from the complex diplomatic negotiations political manoeuvring and environmental diplomacy to the implications on national identities and transnational relations
