Skywatchers Of Ancient Mexico Texas Pan American Series:

Skywatchers of Ancient Mexico Anthony F. Aveni, 1980 Combining as it does the romance of space with the mystery of the past the study of pre Columbian skywatchers of the New World has drawn increasing scientific and popular attention in recent years Aveni one of the pioneers in this new interdisciplinary field couples basic astronomy with archaeological and ethnological data to present a readable and entertaining synthesis of what is known of ancient astronomy in this hemisphere

The Exercise of the Spatial Imagination in Pre-Modern China Garret Pagenstecher Olberding, 2022-02-07 This volume is distinctive for its extraordinarily interdisciplinary investigations into a little discussed topic the spatial imagination It probes the exercise of the spatial imagination in pre modern China across five general areas pictorial representation literary description cartographic mappings and the intertwining of heavenly and earthly space It recommends that the spatial imagination in the pre modern world cannot adequately be captured using a linear militarily framed conceptualization The scope and varying perspectives on the spatial imagination analyzed in the volume s essays reveal a complex range of aspects that informs how space was designed and utilized Due to the complexity and advanced scholarly level of the papers the primary readership will be other scholars and advanced graduate students in history history of science geography art history religious studies literature and broadly sinology

Iconographic Exegesis and Third Isaiah Izaak Joziás Hulster, 2009 Although scholars employ pictorial material in biblical exegesis the question of how images from the Ancient Near East can contribute to a better understanding of the Bible has been left unanswered This is the first monograph to outline a historical method for iconographic exegesis The methodological study includes both responses to important theoretical questions such as What is an image and What is culture and an interdisciplinary exploration of issues of history art history archaeology and cultural anthropology The three stage method proposed is embedded in hermeneutical and exegetical reflections The application of iconographical exegesis to the interpretation of metaphors is also considered In demonstrating the method and its application Izaak J de Hulster focuses on Third Isaiah and develops three iconographical exegetical studies on yad in Isaiah 56 5 light in Isaiah 60 and grape processing in Isaiah 63

Skywatchers Anthony F. Aveni, 2001-08-15 Skywatchers of Ancient Mexico helped establish the field of archaeoastronomy and it remains the standard introduction to this subject Combining basic astronomy with archaeological and ethnological data it presented a readable and entertaining synthesis of all that was known of ancient astronomy in the western hemisphere as of 1980 In this revised

edition Anthony Aveni draws on his own and others discoveries of the past twenty years to bring the Skywatchers story up to the present He offers new data and interpretations in many areas including The study of Mesoamerican time and calendrical systems and their unprecedented continuity in contemporary Mesoamerican culture The connections between Precolumbian religion astrology and scientific quantitative astronomy The relationship between Highland Mexico and the world of the Maya and the state of Pan American scientific practices The use of personal computer software for computing astronomical data With this updated information Skywatchers will serve a new generation of general and scholarly readers and will be useful in courses on archaeoastronomy astronomy history of astronomy history of science anthropology archaeology and world religions Indians of North and South America Carolyn E.
