between black males and white females According to Sommerville pervasive misogyny fused with class prejudices to shape white responses to accusations of black rape even during the Civil War and Reconstruction periods a testament to the staying power of ideas about poor women s innate depravity Based predominantly on court records and supporting legal documentation Sommerville s examination forces a reassessment of long held assumptions about the South and race relations as she remaps the social and racial terrain on which southerners black and white rich and poor related to one another over the long nineteenth century

resistance Pulitzer Prize winning author Eric Foner      *Lethal State* Seth Kotch, 2019-01-10 For years American states have tinkered with the machinery of death seeking to align capital punishment with evolving social standards and public will Against this backdrop North Carolina had long stood out as a prolific executioner with harsh mandatory sentencing statutes But as the state sought to remake its image as modern and business progressive in the early twentieth century the question of execution preoccupied lawmakers reformers and state boosters alike In this book Seth Kotch recounts the history of the death penalty in North Carolina from its colonial origins to the present He tracks the attempts to reform and sanitize the administration of death in a state as dedicated to its image as it was to rigid racial hierarchies Through this lens *Lethal State* helps explain not only Americans deep and growing uncertainty about the death penalty but also their commitment to it Kotch argues that Jim Crow justice continued to reign in the guise of a modernizing orderly state and offers essential insight into the relationship between race violence and power in North Carolina The history of capital punishment in North Carolina as in other states wrestling with similar issues emerges as one of state building through lethal punishment      **Race Relations at the Margins** Jeff Forret, 2006-07-01 Covering a broad geographic scope from Virginia to South Carolina between 1820 and 1860 Jeff Forret scrutinizes relations among rural poor whites and slaves a subject previously unexplored and certainly under reported Forret's findings challenge historians long held assumption that mutual violence and animosity characterized the two groups interactions he reveals that while poor whites and slaves sometimes experienced bouts of hostility often they worked or played in harmony and camaraderie *Race Relations at the Margins* is remarkable for its focus on lower class whites and their dealings with slaves outside the purview of the master Race and class Forret demonstrates intersected in unique ways for those at the margins of southern society challenging the belief that race created a social cohesion among whites regardless of economic status As Forret makes apparent colonial era flexibility in race relations never entirely disappeared despite the institutionalization of slavery and the growing rigidity of color lines His book offers a complex and nuanced picture of the shadowy world of slave poor white interactions demanding a refined understanding and new appreciation of the range of interracial associations in the Old South      *American Slavery* Peter Kolchin, 2003 updated to address a decade of new scholarship the book includes a new preface afterword and revised and expanded bibliographic essay from publisher description      *Slavery in America* Dorothy Schneider, Carl J. LeMaster,Bradford J. Wood,2013-11-01 The essays in *Creating and Contesting Carolina* shed new light on how the various peoples of the Carolinas responded to the tumultuous changes shaping the geographic space that the British called Carolina during the Proprietary period 1663 1719 In doing so the essays focus attention on some of the most important and dramatic watersheds in the history of British colonization in the New World These years brought challenging and dramatic changes to the region such as the violent warfare between British and Native Americans or British and Spanish the no less dramatic development of the plantation system and the decline of proprietary authority All involved contestation whether through violence or debate The very idea of a place called Carolina was challenged by Native Americans and many colonists and metropolitan authorities differed in their visions for Carolina The stakes were high in these contests because they occurred in an early American world often characterized by brutal warfare rigid hierarchies enslavement cultural dislocation and transoceanic struggles for power While Native Americans and colonists shed each other s blood to define the territory on their terms colonists and officials built their own version of Carolina on paper and in the discourse of early modern empires But new tensions also provided a powerful incentive for political and economic creativity The peoples of the early Carolinas reimagined places reconceptualized cultures realigned their loyalties and adapted in a wide variety of ways to the New World Three major groups of peoples European colonists Native Americans and enslaved Africans shared these experiences of change in the Carolinas but their histories have usually been written separately These disparate but closely related strands of scholarship must be connected to make the early Carolinas intelligible *Creating and Contesting Carolina* brings together work relating to all three groups in this unique collection      **New Voyages to Carolina** Larry E.
