Tertre, 2015-10-19 Even for nonbelievers the author's palpable excitement over the subject matter is endearing and entertaining. Ufologists won't want to miss this work.

Foreword Reviews In 1972 American astronomer and ufologist J Allen Hynek first coined the term close encounter. He also identified three types of close encounters with UFOs. Since then several more types of encounters have been proposed. A close encounter of the fourth kind is an alien abduction. A closer encounter of the fifth kind is voluntary bilateral contact with an alien species. We are no longer just looking at strange flying objects in the skies now we are beginning to interact with the actual pilots, crew and passengers. Do aliens exist? In 2013 one poll showed that nearly half of all Americans (48 percent) believe UFOs may be a sign of extraterrestrial visitation; another found that 10 percent of Americans claim to have actually witnessed an actual UFO; and yet another showed that 2.9 million Americans believe they had actually been abducted by aliens. If aliens exist and are visiting us, we need to talk. Who will speak to them on behalf of planet Earth? Who can translate their intentions, good or evil, toward the human race? How can we learn about their advanced technologies? Can aliens speak human languages? These and even more fascinating questions are all addressed in *How to Talk to an Alien*. Nancy du Tertre covers the various considerations involved with extraterrestrial communication, including the use of alien technology, ET linguistics, and the possibility of using telepathy and dreams. Her handbook for the future should be on every thinking person's bookshelf.

Your Body Can Talk, Revised 2nd Edition Susan Levy, D.C., 2014-09-29 This book about the art and application of Clinical Kinesiology introduces the energetic system that links mind and body. It shows how the body can talk and therefore be used as a diagnostic tool and to determine which healing approach will best suit an individual. Clinical Kinesiology allows us to interpret this new body talk. This method of muscle testing reads the body's innate wisdom when asked a question or presented with a stimulus; the muscles respond clearly, either strongly or weakly. This system, which expedites the application of acupuncture, also helps realign the body's energy imbalances. Readers will find specific methods of fighting disease that emphasize the dangers of unnecessary drugs, antibiotics, and immunization, and the need for a fortified immune system, especially through natural foods. Other topics include rebuilding the body's ecology after an overgrowth of unhealthy bacteria or Candidiasis; how to maintain the integrity of the energy system through minimizing exposure to unhealthy electromagnetic fields or EMFs; optimal health for women and issues of men's health. New material in this 2nd edition includes an extensive chapter on children's health, which addresses pregnancy, birthing procedures, and breastfeeding, and illustrates a road map for giving your children and children yet to come the best potential for optimal health.
