Striving And Thriving Meeting The Challenges Of Change:

Striving and Thriving Daniel Howard Johnston, 2004-07 **Business Ethics Education and the Pragmatic Pursuit of the Good** Francis J. Schweigert, 2016-08-12 This book is an extended argument for the critical importance which justice and ethical leadership should have in business ethics education The book examines the history of ideas and purposes in education the contemporary role of business schools and the social foundations of moral education to conclude that the pragmatic pursuit of the good must be a central aim of business strategy To meet the challenges of facing society today the masters of business must be moral craftsmen in a just and democratic private property economy that serves the common good The author grounds this vision for business leadership in the centrality of systems of exchange in human society in generating prosperity and providing for the general welfare Business ethics education has focused primarily on moral formation of individual leaders and managers in the context of ethical codes organizational culture and legal compliance Important as this approach is it fails to generate a sufficient level of business responsibility to satisfy legitimate social concerns regarding the use of natural resources environmental sustainability reasonable limitation of systemic risk in capital markets and fair allocation of goods and services If the social purpose of business is not intentionally embraced and diligently pursued the economy may enrich a few but impoverish the society its resources and its democracy Hence this book argues for a new vision of business ethics that is grounded in public accountability of business operations and outcomes for the common good as a matter of justice *How to Survive and Thrive When Bad Things Happen* Jim Taylor, PhD, 2019-06-08 Few of us go through life without experiencing some sort of crisis whether health financial relationship career or personal safety Crises happen and they are often out of our control But the one thing we can control is how we respond to them Yet our natural instincts often hinder us as we confront today's crises that are complex amorphous and not readily solvable Changing our reaction to a crisis is an immense challenge yet with powerful lessons provided in these pages anyone can turn crises into opportunities for reflection positive action and growth A crisis mentality can overwhelm you when bad things happen Turning crises into opportunities empowers you to overcome the darkness that can engulf you in troubled times and allow you to seek the light that can guide you through hard times Exploring the essential psychological emotional and interpersonal factors that most impact your reaction to a crisis Jim Taylor provides you with deep insights and practical tools that help you move from a crisis mentality of fear pessimism and panic that controls you to an opportunity mindset of calm confidence and courage that you control in a crisis He offers compelling examples both recent and historical well known and unfamiliar to bring these issues to life Illustrations from government large and small business and ordinary people will highlight who responded well and who did not Break free from the crisis mentality and embrace an opportunity mindset with nine strategies that will not only help you to survive but actually thrive when bad things happen *Research and Best Practices on Successful School Turnaround* United States. Unmasking the Male Soul Wilmer G. Villacorta, 2019-09-23 Unmasking the Male Soul is about freedom that confronts the innate and enslaving obsession for power and control in destructive ways At the core of this liberating process we must acknowledge that we cannot escape the sociocultural matrix in which every human being emerges In denying their fallen nature human beings set aside their dependency on God and become self centered and self reliant It is from their self centered hearts that human beings foster dynamics of coercion domination competition and distorted self realization at the expense of others This cycle of shame and guilt is well disguised behind a mask which enables them to enact these dynamics in subtle ways At times even in the name of religion men followed the illusion of their internal insecurities and became dependent on masks of power and control It is time to break away from the chains of exclusion and devaluation of women in Christian leadership Masculinities have only perpetrated a narrative of exceptionalism as the apex of humankind and often they have contrasted to subservient expectations of women in leading others Each chapter responds to the implicit male silence on the issue in a multidisciplinary way with historical sociocultural theological and scriptural implications In this book I will endeavor to challenge the masks of masculinities and dismantle several mental models that foment a gender divide in Christ like leadership in the twenty first century
