Albin, Sahar F. Zafar, 2022-06-02

This practical guide for trainees and advanced practice providers covers the essential management of hospitalized patients with acute neurologic conditions. Divided into five sections, this text serves as an incredibly easy to use, visually accessible, how-to manual that covers exactly what every responding clinician needs to know to care for the patient in front of them. The first section provides tangible guidance about how to pre-round, structure a presentation, examine neurologically ill patients, and interpret the core diagnostics obtained in many neurology patients: CT, MRI, and EEG. The next three sections cover common complaints encountered in the hospital, spanning from non-vascular admissions, vascular stroke, neurology topics, and core neurocritical care principles and chief complaints. Throughout are checklists, scoring systems, pro tips, images, helpful reminders, as well as a concise summary of the pertinent literature. This is an ideal guide for medical students, neurology, neurosurgery, trainees, and advanced practice providers, as well as experienced professionals who want to brush up on the latest updates. **Evidence-based Gastroenterology and Hepatology** John W. D. McDonald, Brian G. Feagan, Rajiv Jalan, Peter J. Kahrilas, 2019-02-13

The revised fourth edition of Evidence Based Gastroenterology and Hepatology continues to provide the most current evidence-based information for determining the appropriate medical and surgical options for screening, diagnosing, and treating gastrointestinal conditions. With contributions from an international team of leading experts in the field, the 4th edition includes practical recommendations for the care of individual patients based on the latest scientific evidence.
