The Story of the NIGER RIVER

Strong Brown God The Story Of The Niger

Heather J. Hoag

Strong Brown God The Story Of The Niger:

The Strong Brown God Sanche de Garmont,1976 *Majestic River* Charles W. J. Withers,2022-11-03 One of the greatest stories of world exploration ever told By the late eighteenth century the river Niger was a 2 000 year old two part geographical problem Solving it would advance European knowledge of Africa provide a route to commercial opportunity and help eradicate the evil of slavery Mungo Park achieved lasting fame in 1796 by solving the first part of the Niger problem which way did the river run Park died in 1806 in circumstances which are still uncertain in failing to solve the second where did the Niger end Numerous expeditions explored the river in the decades following Park s death but not until 1830 was its final course revealed following in the field exploration By then however the Niger problem had been solved by armchair geographers who had never even visited Africa *Majestic River* celebrates Mungo Park s achievements and illuminates his rich afterlife how and why he was commemorated long after his death It is also the thrilling story of the many expeditions that sought to determine the Niger s course and the facts of Park s disappearance as well as a biography of the Niger itself as the river slowly took shape in the European imagination Shortlisted for the Saltire Society History Book of the Year Award

The Lucifer Principle Howard Bloom,2013-11-01 A philosophical look at the history of our species which alternated between fascinating and frightening like reading Dean Koontz or Stephen King *Rocky Mountain News* The Lucifer Principle is a revolutionary work that explores the intricate relationships among genetics human behavior and culture to put forth the thesis that evil is a by product of nature s strategies for creation and that it is woven into our most basic biological fabric In a sweeping narrative that moves lucidly among sophisticated scientific disciplines and covers the entire span of the earth s as well as mankind s history Howard Bloom challenges some of our most popular scientific assumptions Drawing on evidence from studies of the most primitive organisms to those on ants apes and humankind the author makes a persuasive case that it is the group or superorganism rather than the lone individual that really matters in the evolutionary struggle But biology is not destiny and human culture is not always the buffer to our most primitive instincts we would like to think it is In these complex threads of thought lies the Lucifer Principle and only through understanding its mandates will we be able to avoid the nuclear crusades that await us in the twenty first century A revolutionary vision of the relationship between psychology and history The Lucifer Principle will have a profound impact on our concepts of human nature It is astonishing that a book of such importance could be such a pleasure to read Elizabeth F Loftus author of *Memory* Mastering the Niger David Lambert,2013-11-15 In *Mastering the Niger* David Lambert recalls Scotsman James MacQueen 1778 1870 and his publication of *A New Map of Africa* in 1841 to show that Atlantic slavery as a practice of subjugation a source of wealth and a focus of political struggle was entangled with the production circulation and reception of geographical knowledge The British empire banned the slave trade in 1807 and abolished slavery itself in 1833 creating a need for a new British imperial economy Without ever setting foot on the continent MacQueen took on the task of solving the Niger problem that is to

successfully map the course of the river and its tributaries and thus breathe life into his scheme for the exploration colonization and commercial exploitation of West Africa Lambert illustrates how MacQueen s geographical research began four decades before the publication of the New Map when he was managing a sugar estate on the West Indian colony of Grenada There MacQueen encountered slaves with firsthand knowledge of West Africa whose accounts would form the basis of his geographical claims Lambert examines the inspirations and foundations for MacQueen s geographical theory as well as its reception arguing that Atlantic slavery and ideas for alternatives to it helped produce geographical knowledge while geographical discourse informed the struggle over slavery

The Apapa Six: West Africa from a 60S Perspective John Berryman,2021-03-25 Here is a juxtaposition of the personal and inter communal dynamics focussed on the West African experience during the pivotal decade of the 1960s when National Independence demanded a reflexion on the definition of the new states and how external factors have borne heavily upon their past present and future The author blends his experience of study and travel in the region acknowledging his debt to the pioneering spirit of the School of Oriental and African Studies who facilitated the enterprise with an analysis of the challenges the new entities have faced and how they have fared nationally and globally in the light of Slavery Colonialism and Black Lives Matter

The Black Woods Amy Godine,2023-11-15 Winner of the Charles A Weyerhaeuser Forest History Society Book Award The Black Woods chronicles the history of Black pioneers in New York s northern wilderness From the late 1840s to the 1860s they migrated to the Adirondacks to build the farms that helped them meet a 250 property requirement imposed on Black New York voters in 1821 Abolitionist Gerrit Smith gifted 120 000 acres to 3 000 landless Black New Yorkers with the support of Frederick Douglass John Brown and other abolitionists His prescient plan enacted affirmative action and distributive justice But when most of his grantees did not move north Smith s interest cooled He would not visit Timbuctoo Freeman s Home or Blacksville The settlers were on their own In The Black Woods Godine revives this history with stirring stories of frontier life and racial justice She puts the vote seeking Black pioneers at the heart of the Adirondack narrative At long last their shaping role has been reclaimed

Historical Dictionary of Niger Abdourahmane Idrissa,Samuel Decalo,2012-06-01 The fourth edition of the Historical Dictionary of Niger covers the history of the peoples of the Republic of Niger from medieval times to the present This is done through a chronology an introductory essay and an extensive bibliography The dictionary section has over 700 cross referenced entries covering elements of pre colonial and colonial history recent politics cinema literature religion economics and finance This book is an excellent access point for students researchers and anyone wanting to know more about Niger

Niger, Post Report ,1985 **Developing the Rivers of East and West Africa** Heather J. Hoag,2013-09-12 How did rivers contribute to the economic and political development of modern Africa How did African and European notions of nature s value and meaning differ And how have these evaluations of Africa s rivers changed between 1850 and the present day Drawing upon examples from across the African continent Developing the Rivers of East and West

Africa explores the role African waterways played in the continent's economic, social, and political development and provides the first historical study of the key themes in African river history. Rivers acted as more than important transportation byways; their waters were central to both colonial and postcolonial economic development efforts. This book synthesizes the available research on African rivers with new evidence to offer students of African and environmental history a narrative of how people have used and engaged the continent's water resources. It analyzes key themes in Africa's modern history: European exploration, establishment of colonial rule, economic development, green politics, and each case study provides a lens through which to view social, economic, and ecological change in Africa.
