Structural Adjustment, Global Trade, and the New Political Economy of Development Biplab Dasgupta, 1998 The changes in the global economy are so profound this book argues that the world is now confronted with nothing less in both institutional and policy terms than a new political economy of development The author provides an intellectually commanding survey of this new terrain He subjects its economic and ideological assumptions to trenchant critique and shows how the rules of the game primarily reflect the interests of the rich and powerful countries of the North He also surveys the economic performance of the various regions of the South and explores the real reasons for the success of certain Asian economies reasons which run counter to so many of the policy prescriptions laid down by the West for the rest of the South

The Political Economy of Imperialism Ronald M. Chilcote, 2012-12-06 This book brings together important essays by distinguished scholars who have devoted past attention to the study of imperialism and development It complements an anthology of previously published essays that brings together important theoretical perspectives around the issues and debates on these themes this volume will be published by Humanity Press forthcoming Both projects relate to a lengthy chapter Theories of Imperialism which will be published in my book Theories of Comparative Political Economy Forthcoming These projects represent a culmination of many years of teaching in both economics and political science During that time I taught two political science courses on development and under development but I was unable to convince my colleagues of the usefulness of a course on imperialism that linked historical issues and debates with the more recent developmental literature When in 1990 I was welcomed into economics my colleagues endorsed a graduate seminar on the political economy of imperialism Thus this volume evolved out of that experience in an effort to encourage new analysis that reflects retrospectively on past contributions as well as the prospects for imperialism and development in the contemporary world
