Structuralist Philosophy Of The Novel:

The Structuralist Philosophy of the Novel Sunil Sharma (Ph. D.), 1999-01-01 **The Structuralist Philosophy of The Novel** Sunil Sharma, 2025-09-04 A rigorous critique of prominent Western structuralist and sociological approaches to the novel particularly those of George Lukács Lucien Goldmann Alan Swingewood and Michel Zeraffa arguing for a more classical materialist understanding of the genre's origins and evolution The book delves into the genesis of the novel tracing its rise to the 18th century English bourgeoisie characterizing it as the epic of bourgeoisie Sharma discusses how early novelists like Defoe Richardson and Fielding reflected and legitimized the values of an emerging capitalist class through realism and individualism in contrast to the earlier feudal romance He cites critics like Ralph Fox Ian Watt and Arnold Kettle who he argues provide a more suitable Marxist approach to the novel's origins particularly Fox's view of the novel as the epic of the struggle of the individual against society in a capitalist context Sharma aims to correct what he perceives as the reductionist and idealist tendencies in the Marxist sociology of literature put forth by Lukács Goldmann Swingewood and Zeraffa advocating for a more nuanced and genuinely materialistic application of Marxist theory to understand the structural philosophy and historical evolution of the novel **Timothy Findley's Novels Between Ethics and Postmodernism**

Dagmar Krause, 2005 Timothy Findley 1930-2002 is one of the most important contemporary Canadian writers His novels have been classified as postmodern exhibiting characteristic features such as parody historiographic metafiction and hybrid genres This classification of Findley as a postmodern writer however largely neglects the fact that Findley is deeply committed to the exploration of certain ethical and political themes Recurring topics in his work are for instance fascism environmental concerns and the problem of responsibility Sparked off by the fascinating question of how postmodernism and ethics can be reconciled at all and inspired by the so called ethical turn in the literary theory of the 1990s this study supplies a closer look at Findley's ethics with regard to its postmodern potential A detailed analysis of five of his novels *The Wars* *Famous Last Words* *Not Wanted on the Voyage* *The Telling of Lies* and *Headhunter* explores the ethical dimension of Findley's work and its consequences for his categorization as a postmodern writer **The Poverty of Structuralism** Leonard

Jackson, 2014-09-11 *The Poverty of Structuralism* is the first in a sequence of volumes which examine in turn the basic ideas of Saussure Marx and Freud and analyse the way in which they have been developed and applied to art culture and modern textual theory The text offers a critical introduction to the structuralist foundations of modern literary theory It gives an account of the way such foundations have been developed twisted and distorted to become part of the language that contemporary literary and cultural theoreticians use It also addresses some of the fundamental issues about language and society that are presupposed by the often difficult language of modern literary and cultural theory **The Novel** Dorothy J. Hale, 2009-02-09 *The Novel An Anthology of Criticism and Theory* 1900-2000 is a collection of the most influential writings on the theory of the novel from the twentieth century Traces the rise of novel theory and the extension of its influence into other

disciplines especially social cultural and political theory Broad in scope including sections on formalism the Chicago School structuralism and narratology deconstruction psychoanalysis Marxism social discourse gender post colonialism and more Includes whole essays or chapters wherever possible Headnotes introduce and link each piece enabling readers to draw connections between different schools of thought Encourages students to approach theoretical texts with confidence applying the same skills they bring to literary texts Includes a volume introduction a selected bibliography an index of topics and short author biographies to support study

Post-Structuralism: A Note on the Philosophical School Pons Malleus, 2025-07-02

This book is an invitation into one of the most challenging provocative and enduring philosophical movements of the late 20th century post structuralism Emerging in the wake of structuralism's systematic approach to language culture and society post structuralism did not so much reject its predecessor as it questioned its foundational certainties It reoriented philosophical inquiry toward ambiguity contingency and the instability of meaning challenging our deepest assumptions about truth identity power and knowledge Post structuralism is not a unified doctrine or a clearly bounded school of thought Rather it is a constellation of thinkers Michel Foucault Jacques Derrida Gilles Deleuze Julia Kristeva Jean Baudrillard and others each charting a unique intellectual path What binds them however loosely is a shared skepticism toward totalizing narratives fixed categories and objective truths Where structuralism sought underlying systems whether linguistic anthropological or psychoanalytic post structuralism problematized those systems demonstrating how they are shaped by historical contingencies power dynamics and the play of language itself This book does not aim to simplify post structuralism into a set of clear rules or principles nor does it attempt to resolve its many internal tensions Instead it offers a guide through its core concepts difference deconstruction discourse power subjectivity and more while contextualizing them within the broader intellectual and historical landscape From Derrida's unsettling of the metaphysics of presence to Foucault's genealogies of knowledge and power from Deleuze's philosophy of becoming to Kristeva's theories of the abject post structuralism offers a relentless interrogation of the categories that structure thought and society Crucially this book seeks to clarify not codify The writing of many post structuralists is notoriously difficult sometimes maddeningly so This complexity is not a mere stylistic flourish it often reflects the very nature of the questions being asked questions that resist closure and demand a new kind of philosophical literacy Yet with patient reading and careful attention the rewards of engaging with post structuralist thought are profound It offers tools for examining the assumptions beneath our language institutions and identities revealing how what appears natural or self evident is often historically constructed and ideologically motivated This book is for students encountering post structuralism for the first time for scholars seeking a synthetic overview and for readers from other disciplines literature sociology political theory cultural studies who find themselves drawn to its critical promise It is written with the conviction that philosophy is not an abstract self contained enterprise but a living practice that helps us understand and perhaps reshape the world we inhabit In an age increasingly dominated by rigid ideologies identity essentialisms and

algorithmic certainties the post structuralist impulse to question foundations to embrace complexity and to remain open to the other feels more urgent than ever Whether one ultimately agrees with its premises or not engaging seriously with post structuralism can sharpen critical awareness and deepen our understanding of the conditions that shape contemporary thought and life

Gilles Deleuze: Affirmation in Philosophy J. Conway, 2010-10-27 Why does knowledge of philosophy presuppose knowledge of reality What are the characters in Deleuze's theatre and philosophy How are his famous metaphysical distinctions secondary to the concept of philosophy as practice and politics These questions are answered through careful analysis and application of Deleuzian principles
