Structure Of The World In Udayanas Realism:

The Structure of the World in Udayana's Realism M. Tachikawa, 2012-12-06 Books dealing with individual philosophers as well as annotated translations of their works are very much in need in the field of classical Indian philosophy. Hence the research efforts of modern scholars should increasingly be devoted to this objective. Professor M. Tachikawa has selected a very short elementary treatise of Udayana as well as some portions of a larger work of the same author to supplement the first. His aim is to present to us in Udayana's own terms how he sees the Nyaya-Vaiśeṣika system in a synoptic fashion. I wish to take this opportunity to say a few things about Udayana and the Nyaya-Vaiśeṣika system. UDAYANA Udayana was a pre-eminent philosopher and an astute logician of the eleventh-twelfth century India. He belonged to the Mithila region of the present Bihar state. In the history of the Nyaya-Vaiśeṣika he holds a very crucial position. In fact, two different schools of philosophy, Nyaya and Vaiśeṣika, belonging to ancient India merged into one in the writings of Udayana. As it has been said in Udayana, the happy marriage between Nyaya and Vaiśeṣika was complete. The Vaiśeṣika ontological scheme, padārthas or system of categories, was in this way combined with the pramāṇa doctrine, logic, and a theory of knowledge of Nyaya to produce what later came to be designated as Navya Nyaya. The Structure of the World in Udayana's Realism M.

Tachikawa, 1982-01-31 **Three Mountains and Seven Rivers** Musashi Tachikawa, Shoun Hino, Toshihiro Wada, 2004-01-01 Three mountains and the seven rivers is a collection of 56 essays to felicitate the sixtieth birthday of Doctor Musashi Tachikawa, Professor at Aichi Gakuin University in Nagoya. This volume consists of thirteen sections: 1 Ancient Geography, 2 Buddhism, 3 Madhyamika, 4 Iconography, 5 Jainism, 6 Logic, 7 Poetics, 9 Social Practice, 10 Tibetan Themes, 11 Vedānta and Mimamsa, 12 Saṃkhya and Yoga, and 13 Tantrism. These sections throw new light on enduring themes in Indian studies as well as raise fresh issues. Classical Indian Metaphysics: Refutations of Realism and the Emergence of New Logic Stephen H. Phillips, 1998-01-01 Our knowledge of the most ancient times in India rests mainly on tradition. The Puranas, the Mahābhārata, and in a minor degree of the Rāmāyaṇa, profess to give accounts from tradition about the earliest occurrences. The R̥gveda contains historical allusions of which some record contemporary persons and events but more refer to bygone times and persons and are obviously based on tradition. Almost all the information therefore comes from tradition. The results obtained from an examination of Puranic and epic tradition as well as of the R̥gveda and Vedic literature are set forth in the present book, which happens to be a pioneering work in the area by an important orientalist of the nineteenth century.

Jonardon Ganeri,2003-09-01 This original work focuses on the rational principles of Indian philosophical theory rather than the mysticism more usually associated with it Ganeri explores the philosophical projects of a number of major Indian philosophers and looks into the methods of rational inquiry deployed within these projects In so doing he illuminates a network of mutual reference criticism influence and response in which reason is used to call itself into question This fresh perspective on classical Indian thought unravels new philosophical paradigms and points towards new applications for the concept of reason *A Comparative History of World Philosophy* Ben-Ami Scharfstein,1998-02-27 A Comparative History of World Philosophy presents a personal yet balanced guide through what the author argues to be the three great philosophical traditions Chinese European and Indian The book breaks through the cultural barriers between these traditions proving that despite their considerable differences fundamental resemblances exist in their abstract principles Ben Ami Scharfstein argues that Western students of philosophy will profit considerably if they study Indian and Chinese philosophy from the very beginning along with their own Written with clarity and infused with an engaging narrative voice this book is organized thematically presenting in virtually every chapter characteristic views from each tradition that represent similar positions in the core areas of metaphysics and epistemology At the same time Scharfstein develops each tradition historically as the chapters unfold He presents a great variety of philosophical positions fairly avoiding the relativism and ethnocentrism that could easily plague a comparative presentation of Western and non Western philosophies *The Theology of Ramanuja* C. J. Bartley,2013-10-11 This is the first attempt to understand Ramanuja in the context of his religious and philosophical tradition It is the only work which establishes his indebtedness to his immediate predecessor Yamuna and which identifies his actual opponents It is accordingly a contribution to the wider history of classical Indian thought and not just a consideration of a single individual and his tradition *The Structure of the World in Udayana's Realism* M. Existence and Perception in Medieval Vedānta Michael Thomas Williams,2024-08-06 This book focuses on discussions of metaphysics and epistemology in early modern India found in the works of the South Indian philosopher Vyasa rtha 1460-1539 Vyasa rtha was pivotal to the ascendancy of the Mādhyama tradition to intellectual and political influence in the Vijayanagara Empire This book is primarily a philosophical reconstruction based on original translations of relevant parts of Vyasa rtha's Sanskrit philosophical text the Nectar of Logic Nyāyamartha Vyasa rtha wrote the Nyāyamartha as a vindication of his tradition's theistic world view against the Advaita tradition of Vedānta In the centuries after it was written the Nyāyamartha came to dominate philosophical discussions among Vedānta traditions in India The Advaitins argued for an anti-realist stance

about the empirical world according to which the world of our experience is simply an illusion that can be dispelled by a deep study of the Upaniads. This book reconstructs the parts of the Nyāya-mīmāṃsā where Vyāsatīrtha argues in favor of the reality of the world against the Advaitins. Philosophically it focuses on the concept of existence in Vyāsatīrtha's metaphysics and on his arguments about knowledge and the philosophy of perception.
