Thomas E. Hosinski, C. S. C.,1993-08-11 an attractive alternative to Victor Lowe s Understanding Whitehead Ivor Leclerc s Whitehead s Metaphysics and Donald Sherburne s A Key to Whitehead s Process and Reality Recommended for advanced undergraduates and beyond CHOICE

Stubborn Fact and Creative Advance Thomas E. Hosinski,1993 An introduction to the complex metaphysics of Alfred North Whitehead aimed at the philosophy student It explains Whitehead s central concerns ideas and terms in a linear and simple fashion Examples from daily life illustrate the implications of his thought for contemporary Christian theology

Whitehead's Metaphysics of Power Pierfrancesco Basile,2017-03-08 Shows how Whiteheads metaphysics developed from his reading of early modern philosophyAt the beginning of his magnum opus Process and Reality 1929 Whitehead lists a series of beliefs which he thinks are widely held by contemporary philosophers They are all condemned as dangerously mistaken What are these myths Why are they rejected In the works of which modern thinker did they arise What precisely went wrong At what stage in the development of Western thought did this happen By tackling these questions Pierfrancesco Basile makes it possible to grasp the main concepts of Whiteheads process metaphysics especially the crucial notion that being and power are one and the same and appreciate the complex way this is rooted in the modern philosophical tradition Key FeaturesShows how Whiteheads metaphysics of power and events is deeply rooted in mainstream Western philosophyIllustrates how our understanding of the great masters of the past Descartes Locke Hume Leibniz and Spinoza benefit from viewing them from the standpoint of Whiteheads metaphysicsProvides a critical assessment of Whiteheads metaphysics and his overall philosophy The Phenomenology of Traffic

Glenn Wyatt,2020-09-09 The book delves into the affective embodied and sensory dimensions of traffic and urban mobility It brings together key phenomenological and post phenomenological readings to challenge taken for granted assumptions of urban traffic Through the experiences of traffic users in Ho Chi Minh City Vietnam the book provides fascinating pathways into structures and processes that make up phenomenal traffic worlds It explores the nature of the traffic experience modalities of existence within it and the wide spectrum of awarenesses involved in making sense from non sense The book offers rich theoretical insights on how we feel our way through our affect laden worlds Through empirical examples from the urban traffic in Ho Chi Minh City the book explores this fluid constantly changing complex collective of ongoing negotiations we call traffic often emotional involving

and producing all kinds of entities It develops a range of philosophical concepts in order to better understand the complex relationships between humans and non humans in everyday settings Offering innovative insights into the structures authorities materialities and forms of power that shape our experiences of traffic this book will be of interest to students scholars and practitioners interested in philosophy cultural geography mobilities transport studies cultural studies and urban studies

Whitehead's Pancreativism Michel Weber,2013-05-02 There is one question that any potential reader who suspects that Alfred North Whitehead 1861 1947 might be important for past contemporary and future philosophy inevitably raises how should I read Whitehead How can I make sense of this incredibly dense tissue of imaginative systematizing spread over decades of work in disciplines so different and specialized as algebra geometry logic relativistic physics and philosophy of science Accordingly this monograph has two main complementary objectives The first one is to propose a set of efficient hermeneutical tools to get the reader started These straightforward tools provide answers that are highly coherent and probably the most applicable to Whitehead s entire corpus The second objective is to illustrate how the several parts of Process and Reality are interconnected something that all commentators have either failed to recognise or only incompletely acknowledged

The Becoming of God Roland Faber,2017-04-06 How should we believe in God today If we look beyond our little lives to the vast cosmos we may even ask Why all that And even if we spiritually feel the universe Why believe any religion After all there are many and haven t they contributed to the predicament of humanity Process theology gives provocative answers to these questions how we are bound by the organic cycles of this world but how in this web of life God shines even in the last least and forgotten event as the Eros of its becoming and as its mirror of greatness why anything exists because it is from beauty for harmony and intensity and through a consciousness of peace rising from our deepest intuitions of existence We can change not only in our thoughts and lives but even in the way we experience this world This book introduces such a new way of experiencing thinking and living Based on the fascinating work on cosmology religion and civilization of Alfred North Whitehead this book develops the main theses of process theology and elucidates it as a theopoetics of mutual care for the unexpected the excluded the forgotten and a future society of peace

Depths As Yet Unspoken Roland Faber,2020-07-30 Whitehead s thought continues to attract attention in mathematics and metaphysics but few have recognized with Roland Faber the deeply mystical dimensions of his philosophy If you like to phrase it so Whitehead states philosophy is mystical For mysticism is direct insight into depths as yet unspoken Where however do these unspoken depths speak in Whitehead and what are their associated themes in his philosophy For the first time Depths As Yet Unspoken gathers together Faber s most compelling writings on Whitehead s mutually immanent themes of mysticism multiplicity and divinity In dialogue with a diversity of voices from process philosophers and theologians to mystical and poststructuralist thinkers Faber creatively articulates Whitehead s theopoetic process cosmogony in its relevance to metaphysics cosmology everyday experience religious pluralism and interreligious violence spirituality and longstanding concerns of the theological

tradition including creation the Trinity revelation religious experience and divine mystery Although Whitehead's mystical inclinations may not be obvious at first they in fact constitute the apophatic backdrop to his entire philosophical corpus Through Faber's work Whitehead's philosophy is revealed to be nothing short of a remarkable endeavor to speak to the unfathomable depth of things [The Mind of Whitehead](#) Roland Faber, 2024-05-30 For Alfred North Whitehead the fundamental basis of reality is connectivity the possibility interdependence and actualisation that defy our human desire for structure categorisation and division In this spirit Professor Roland Faber combines the disparate interests of Whitehead's study from Mathematics to Divinity Political Philosophy to Cosmology to trace the thematic similarities of this work and establish their unity in the mind of Whitehead Focussing on the experience of reading Whitehead's rich text Faber invites the reader not to search for fixed patterns but to explore the impermanence and diversity of Whitehead's ideas The Mind of Whitehead offers the curious reader a creative exploration of a crucial twentieth century philosopher speaking to global concerns from a position of possibility and complexity
