West,Myrdene Anderson,2016-09-12 This book constitutes the first treatment of C S Peirce s unique concept of habit Habit animated the pragmatists of the 19th and early 20th centuries who picked up the baton from classical scholars principally Aristotle Most prominent among the pragmatists thereafter is Charles Sanders Peirce In our vernacular habit connotes a pattern of conduct Nonetheless Peirce s concept transcends application to mere regularity or to human conduct it extends into natural and social phenomena making cohesive inner and outer worlds Chapters in this anthology define and amplify Peircean habit as such they highlight the dialectic between doubt and belief Doubt destabilizes habit leaving open the

possibility for new beliefs in the form of habit change and without habit change the regularity would fall short of habit conforming to automatic mechanistic systems This treatment of habit showcases how through human agency innovative regularities of behavior and thought advance the process of making the unconscious conscious The latter materializes when affordances invariant habits of physical phenomena form the basis for modifications in action schemas and modes of reasoning Further the book charts how indexical signs in language and action are pivotal in establishing attentional patterns and how these habits accommodate novel orientations within event templates It is intended for those interested in Peirce s metaphysic or semiotic including both senior scholars and students of philosophy and religion psychology sociology and anthropology as well as mathematics and the natural sciences *The Logic of Commands* Nicholas Rescher,2019-11-04 Originally published in 1966 Professor Rescher s aim is to develop a logic of commands in exactly the same general way which standard logic has already developed a logic of truth functional statement compounds or a logic of quantifiers The object is to present a tolerably accurate and precise account of the logically relevant facets of a command to study the nature of inference in reasonings involving commands and above all to establish a viable concept of validity in command inference so that the logical relationships among commands can be studied with something of the rigour to which one is accustomed in other branches of logic *Annual Report of the Secretary of War* United States. **Companion to the Summa Theologica: The pursuit of happiness (corresponding to the Summa theologica Ia IIae)** Walter Farrell,2009-01-01 *The Nature of Law* Daniel Mark,2024-08-15 Challenging the prevailing understanding of the authority of law Daniel Mark offers a theory of moral obligation that is rooted both in command and in the law s orientation to the common good When and why do we have an obligation to obey the law Prevailing theories in the philosophy of law starting with the work of H L A Hart and Joseph Raz fail to provide definitive answers regarding the nature of legal obligation In this highly original and effective new work Daniel Mark argues that there is a prima facie moral obligation to obey the law simply because it is the law In Mark s view the best concept of law one that allows for the possibility of justified authority and obligation defines law as a set of commands oriented to the common good Legal obligation he proposes shares defining features with moral obligation and with religious obligation while aligning wholly with neither This philosophically coherent view of legal obligation offers a viable framework for analyzing important and seemingly paradoxical puzzles about the law such as why civil disobedience is punished as lawbreaking or why war crimes trials for legal but immoral acts present a moral quandary By reconciling the concept of law as command with the role of law in promoting the common good *The Nature of Law* provides an original and important scholarly contribution to the fields of legal philosophy and political thought [Journal of the United Service Institution of India](#) United Service Institution of India,1909 **Basic Writings of St. Thomas Aquinas, Volume 2** Thomas Aquinas,Anton C.
