*The Harmless People* Elizabeth Marshall Thomas, 2010-11-24 A study of primitive people which for beauty of style and concept would be hard to match The New York Times Book Review In the 1950s Elizabeth Marshall Thomas became one of the first Westerners to live with the Bushmen of the Kalahari desert in Botswana and South West Africa Her account of these nomadic hunter gatherers whose way of life had remained unchanged for thousands of years is a ground breaking work of anthropology remarkable not only for its scholarship but for its novelistic grasp of character On the basis of field trips in the 1980s Thomas has now updated her book to show what happened to the Bushmen as the tide of industrial civilization with its flotsam of property rights wage labor and alcohol swept over them The result is a powerful elegiac look at an endangered culture as well as a provocative critique of our own The charm of this book is that the author can so truly convey the strangeness of the desert life in which we perceive human traits as familiar as our own The Harmless People is a model of exposition the style very simple and precise perfectly suited to the neat even fastidious activities of a people who must make their world out of next to nothing The Atlantic

**Yanomami** Rob Borofsky, 2005-01-31 Yanomami raises questions central to the field of anthropology questions concerning the practice of fieldwork the production of knowledge and anthropology s intellectual and ethical vision of itself Using the Yanomami controversy one of anthropology s most famous and explosive imbroglios as its starting point this book draws readers into not only reflecting on but refashioning the very heart and soul of the discipline It is both the most up to date and thorough public discussion of the Yanomami controversy available and an innovative and searching assessment of the current state of anthropology The Yanomami controversy came to public attention through the publication of Patrick Tierney s best selling book Darkness in El Dorado in which he accuses James Neel a prominent geneticist who belonged to the National Academy of Sciences as well as Napoleon Chagnon whose introductory text on the Yanomami is perhaps the best selling anthropological monograph of all time of serious human rights violations This book identifies the ethical dilemmas of the controversy and raises deeper structural questions about the discipline A portion of the book is devoted to a unique roundtable in which important scholars on different sides of the issues debate back and forth with each other This format draws readers into deciding for themselves where they stand on the controversy s and many of anthropology s central concerns All of the royalties from this book will be donated to helping the Yanomami improve their healthcare

**A Princess of the Aerie** John Barnes, 2013-11-26 DIVDIV Jak Jinnaka is off to save a princess yet again except divDIV Ostensibly a diplomat really a spy in training Jak Jinnaka has such a gift for getting into trouble that his fellow students have voted him most likely to have a war named after him His latest offense against cultural sensitivity would have ended his career at his junior year except that the Academy is thoroughly corrupt Jak has powerful and wealthy friends and there s an easier way for

the dean of students to get rid of him Jak s ex girlfriend Princess Shyf of Greenworld one of hundreds of nations in a space station the size of the moon sends a cry for help that will conveniently take Jak one hundred eighty five million miles out of the dean s hair divDIV divDIVJust like that Jak is off to save Shyf in the name of true love the Aerie for the sake of liberty and his own potential for a lucrative and undemanding government job divDIV divDIVBut Shyf has found a very unpleasant use for Jak and now that she s got him she might not let him go divDIV div div *In the Hall of the Martian King* John

Barnes,2013-11-26 DIVDIVWith the soul of thirty sixth century humanity at stake Jak Jinnaka steps in now we re really in trouble divDIV Jak Jinnaka parlayed his powerful family connections unearned media fame and consistent dumb luck into a cushy job as vice procurator of the Martian moon Deimos an office he precariously maintains alongside his top secret post as a station chief for Hive Intelligence two soft jobs for an already rich handsome single young man in a fun loving colonial outpost divDIV Sadly when his boss takes a well deserved vacation it looks like Jak may actually have to do a little work keep local trade humming maintain the Hive s hegemony prevent the boss s pretty teenage niece s internship from becoming front page celebrity gossip and make sure his rambunctious visiting uncle Sib doesn t cause international incidents among the thousands of prickly petty kingdoms on Mars divDIV Then in one of the pettiest kingdoms of all the lifelog of the man who wrote the Wager a set of principles that guides all human life in the thirty sixth century is discovered and the race is on for control of the holiest relic in a thousand years with Jak in the lead and all of the devils and angels of his past howling at his heels divDIV div div

*Asking and Listening* Paul Bohannan,Dirk van der Elst,1998-02-04 Giving students the capacity to include ethnography in their own experience Asking and Listening is the first book to trace the changing ways in which human beings have learned to look at the Others Beyond the Gate with their strange languages and stranger customs Not a history of ethnography so much as a chronicle of its uses and potentials Asking and Listening examines the premises of ethnography and concerns itself with a wide range of issues such as ethnocentrism and the morass of cultural relativism the cultures of corporations and the meaning of ethnography for government policy It ends with an examination of the problems in charting our tomorrows ethnography in the information age and for the future Through its pragmatic analysis of cultures as storehouses of alternatives in the way universal problems can and have been approached Asking and Listening offers students not merely the opportunity to make sense of descriptions of other peoples lifeways but makes such ethnographic knowledge immediately useful in their own lives choices and career plans *Demography of the Dobe !Kung* Nancy

Howell,2017-11-22 First published in 1979 this is a classic study of the population of the Bushmen of the Kalahari Deselt of Botswana Using methods that are simple and fully illustrated the author presents empirical descriptions of the fertility mortality and marriage patterns of the now famous Kung hunter gatherers The King Bushman people of the Kalahari desert in Africa occupy an anomalous position in the world of science They have been selected for intensive study precisely because they are geographically socially and economically removed from modern industrialized society living in a sparsely settled and

remote portion of an enormous semidesert The Kung maintain the language and culture of a fully developed hunting and gathering society with until very recently no dependence on cultivated plants no domesticated animals other than the dog no stratification system based on kinship or occupation no power or authority structure extending further than the local bands composed of a few related families no wage labor no use of money and no settled sites of occupation At the same time the Kung have become well known figures to students both undergraduate and professional of Western social science The faces of Kung informants gaze from the covers and the illustrations of many texts in anthropology and sociology Why has all this attention been developed around the Kung people Part of the answer lies in the people themselves The Kung are a physically attractive people with slender graceful bodies and open small featured faces that are appealing and photogenic Their culture is simple and has its striking features The struggle for subsistence the click language the emphasis on sharing and humility the drama of the curing dances in which individuals go into trance and speak directly to spirits to cure sickness and the pervasive humor teasing and playfulness of the Kung style are all features that are relatively easy to convey and interesting to learn about This work covers areas such as marriage fertility disease mortality history and the projected future of the Kung This book will be of interest to students of demographic studies anthropology and African studies **Where the**

**Roads All End** Ilisa Barbash, 2016 Where the Roads All End tells the remarkable story of an American family's expeditions to the Kalahari Desert in the 1950s Raytheon founder Laurence Marshall and his family recorded the lives of the last remaining hunter gatherers the so called Bushmen in what is now recognized as one of the most important anthropology ventures in Africa **Prescription for an Ailing World** Wayne Allen, 2017-09-29 In 1924 an Australian minister observed that while

the world may be getting better off the world is not getting better Almost one hundred years have passed and little has changed No doubt people today are healthier and wealthier than ever before But people do not seem to be any more virtuous New technologies have changed the way people live but violence torture terrorism cruelty deception dishonesty and disrespect continue to threaten how well people live Wayne Allen argues that while humanity may be ailing it is not beyond treatment and cure By embracing ten essential principles rooted in the Bible and putting them into practice it is possible to make people better Allen takes the reader through a tour of the sad state of moral health of humanity and suggests a remedy With remarkable humor and sharp insight Allen will bring readers to an appreciation of how the world can be transformed

**The Hidden Life of Life** Elizabeth Marshall Thomas, 2018-03-03 An iconoclast and best selling author of both nonfiction and fiction Elizabeth Marshall Thomas has spent a lifetime observing thinking and writing about the cultures of animals such as lions wolves dogs deer and humans In this compulsively readable book she provides a plainspoken big picture look at the commonality of life on our planet from the littlest microbes to the largest lizards Inspired by the idea of symbiosis in evolution that all living things evolve in a series of cooperative relationships Thomas takes readers on a journey through the progression of life Along the way she shares the universal likenesses experiences and environments of Gaia's creatures from

amoebas in plant soil to the pets we love from proud primates to Homo sapiens hunter gatherers on the African savanna Fervently rejecting anthropocentric the notion that nonhuman life does not share characteristics with humans Thomas instead shows that paramecia can learn plants can communicate humans aren't really as special as we think we are and that it doesn't take a scientist to marvel at the smallest inhabitants of the natural world and their connections to all living things A unique voice on anthropology and animal behavior Thomas challenges scientific convention and the jargon that prevents us all from understanding all living things better This joyfully written book is a fascinating look at the challenges and behaviors shared by creatures from bacteria to larvae to parasitic fungi a potted hyacinth to the author herself and all those in between

California. Court of Appeal (2nd Appellate District). Records and Briefs California (State)., **Dreaming of Lions** Elizabeth Marshall Thomas, 2016 In *Dreaming of lions* the author shares stories from her life from South West Africa now Namibia in the 1950s to the Kalahari Desert where she conducted fieldwork among the Ju wa Bushmen Her skills as an observer and a writer put to the test on these and many occasions working with dogs cats cougars deer and with personal struggles she has become the author of many books full of insightful observations **The Moral Lives of Animals** Dale Peterson, 2011-03-15 Wild elephants walking along a trail stop and spontaneously try to protect and assist a weak and dying fellow elephant Laboratory rats finding other rats caged nearby in distressing circumstances proceed to rescue them A chimpanzee in a zoo loses his own life trying to save an unrelated infant who has fallen into a watery moat The examples above and many others argues Dale Peterson show that our fellow creatures have powerful impulses toward cooperation generosity and fairness Yet it is commonly held that we Homo sapiens are the only animals with a moral sense that we are somehow above and apart from our fellow creatures This rigorous and stimulating book challenges that notion and it shows

the profound connections the moral continuum that link humans to many other species Peterson shows how much animal behavior follows principles embodied in humanity's ancient moral codes from the Ten Commandments to the New Testament Understanding the moral lives of animals offers new insight into our own      **The Challenge of Human Diversity** DeWight R. Middleton, 2010-04-28 Middletons fair uncluttered synthesis of a wide ranging topic continues to offer inspiration for thinking about what it means to be different from and similar to Others Brief ethnographic excerpts are interwoven to demonstrate the hold that culture has on us Such firsthand experiences reported by anthropologists reveal the challenging and sometimes humorous situations that can arise when we attempt to understand Others and when they do the same with us Heralded by Anthropology Today Middleton by making the sensory and intellectual challenge of culture shock so central to his pedagogic strategy has found common ground that should unite all schools of cultural anthropology The work brims with valuable insights that broaden possibilities to achieve rewarding human interaction whether in our own neighborhood or across the globe Arguably one of the best contemporary treatments of cultural diversity available the latest edition includes expanded discussions of applied anthropology and ethics      *Literatures in African Languages* B. W. Andrzejewski, S. Pilaszewicz, W. Tyloch, 1985-11-21 Although African literatures in English and French are widely known outside Africa those in the African languages themselves have not received comparable attention In this book a number have been selected for survey by fourteen specialist writers providing the reader with an introduction to this very wide field and a body of reference material which includes extensive bibliographies and biographical information on African authors Theoretical issues such as genre divisions are discussed in the essays and the historical social and political forces at work in the creation and reception of African literature are examined Literature is treated as an art whose medium is language so that both the oral and written forms are encompassed This book will be of value not only to readers concerned with the cultures of Africa but to all those with an interest in the literary phenomena of the world in general      **The People of the State of Illinois V.
