Thai Art David Teh, 2017-04-07 The interplay of the local and the global in contemporary Thai art as artists strive for international recognition and a new meaning of the national Since the 1990s Thai contemporary art has achieved international recognition circulating globally by way of biennials museums and commercial galleries Many Thai artists have shed identification with their nation but Thainess remains an interpretive crutch for understanding their work In this book the curator and critic David Teh examines the tension between the global and the local in Thai contemporary art Writing the first serious study of Thai art since 1992 and noting that art history and criticism have lagged behind the market in recognizing it he describes the competing claims to contemporaneity as staked in Thailand and on behalf of Thai art elsewhere He shows how the values of the global art world are exchanged with local ones how they do and don't correspond and how these discrepancies have been exploited How can we make sense of globally circulating art without forgoing the interpretive resources of the local national or regional context Teh examines the work of artists who straddle the local and the global becoming willing agents of assimilation yet resisting homogenization He describes the transition from an artistic subjectivity couched in terms of national community to a more qualified postnational one against the backdrop of the singular but waning sovereignty of the Thai monarchy and sustained political and economic turmoil Among the national currencies of Thai art that Teh identifies are an agricultural symbology a Siamese poetics of distance and itinerancy and Hindu Buddhist conceptions of charismatic power Each of these currencies has been converted to a legal tender in global art signifying sustainability utopia the conceptual and the relational but what is lost and what may be gained in such exchanges

questions in Buddhist art the origin of the Buddha image and the iconography of the Buddha images The earliest Buddhist art of Sanchi and Bharhut is aniconic The Buddha is represented in symbols only In the later Buddhist art of Gandhara and Mathura the Buddha is represented in human form he is the principal subject of sculptural art The book seeks to explore the geographical area in which the image of the Buddha first emerged and whether the Buddhist doctrines Hinayana or Mahayana had anything to do with this transformation The Buddha image as developed eventually at Sarnath became the model for the Buddha images in whole of Asia south east central and eastern Asia The iconographic features of the Buddha image are superficially an aberration being in apparent conflict with the doctrine The Buddha had cut off his hair at the time of his renunciation the rules of the order enjoin that a monk must be tonsured and must discard and eschew all riches However in his images the Buddha has hair on his head later he is also endowed with a crown and jewels After an exhaustive examination of the views of various scholars the book answers these questions and resolves the controversies on the basis of literary numismatic and epigraphic sources More importantly it makes use of the valuable evidence from the contemporaneous Jaina art Aniconism of early Jaina art and the iconographic features of Jaina images The implications of this study are also important Does India owe idolatry to Buddhism Was this of foreign inspiration Was the Buddha image fashioned after the Vedic Brahma and whether the Buddha's usnisa and Buddhist art motifs are rooted in the Vedic tradition The book is profusely illustrated and provides rich and stimulating fare to students of Indian art in general and of Buddhist art in particular

The Buddhist World of Southeast Asia Donald K. Swearer, 2012-02-01 An unparalleled portrait Donald K Swearer's Buddhist World of Southeast Asia has been a key source for all those interested in the Theravada homelands since the work's publication in 1995 Expanded and updated the second edition offers this wide ranging account for readers at the beginning of the twenty first century Swearer shows Theravada Buddhism in Southeast Asia to be a dynamic complex system of thought and practice embedded in the cultures societies and histories of Thailand Myanmar Burma Laos Cambodia and Sri Lanka The work focuses on three distinct yet interrelated aspects of this milieu The first is the popular tradition of life models personified in myths and legends rites of passage festival celebrations and ritual occasions The second deals with Buddhism and the state illustrating how King Asoka serves as the paradigmatic Buddhist monarch discussing the relationship of cosmology and kingship and detailing the rise of charismatic Buddhist political leaders in the postcolonial period The third is the modern transformation of Buddhism the changing roles of monks and laity modern reform movements the role of women and Buddhism in the West

Southeast Asia in the 9th to 14th Centuries David G. Marr, Anthony Crothers Milner, 1986 Southeast Asia has sometimes been portrayed as a static place In the ninth to fourteenth centuries however the region experienced extensive trade bitter wars kingdoms rising and falling ethnic groups on the move the construction of impressive monuments and debate about profound religious issues Readers of this volume will learn much of how people lived in Southeast Asia five hundred to one thousand years ago the region today cannot be comprehended without reference

to the seminal developments of that period Vientiane Marc Askew, Colin Long, William Logan, 2006-12-07 Providing insights into this neglected Southeast Asian city this interesting book interprets Vientiane's landscape physical as well as imagined as a reflection of key aspects of Lao geo political history the nature of Lao urbanism and its critical relation to constructions of Lao identity in the contemporary period It is argued that the patterns of change seen through Vientiane's past embody the key political and economic processes and transformations impacting on the people of Laos The Lao urban past has rarely been an object of attention by scholars Laos in fact is continually portrayed as a rural backwater marginal to the dynamic trends affecting most of the Southeast Asian mainland In contrast to these persistent and static portrayals of Laos as a tiny landlocked backwater with no significant urban present or past the authors aim to document explain and evaluate the significance of the Lao urban landscape Focusing on the theme of Vientiane's marginality in its various forms the book interprets this apparent marginality as an historically produced phenomenon resulting from geo politics dating from the pre colonial period and extending into the post colonial period Drawing on a wide range of research materials Vientiane is the first work of its kind on this ignored city **Origins of Thai Art** Betty Gosling, 2004 Over the last 20 years intensive research has shed new light on Thailand's ancient pre Tai era a period that spanned from the 3rd millennium BC to the 13th century AD This illustrated book by a renowned authority on the subject presents a survey of early Thai art
