C.H. Lawrence, Janet Burton

The Hermit Monks Of Grandmont Cistercian Studies Series:

The Hermit Monks of Grandmont Carole Hutchison, 1989 A study of the history and lifestyle of the hermit monks of Grandmont before the French Revolution this book also features illustrations of their architecture *Monastic Archaeology* Graham Keevill, Mick Aston, Teresa Hall, 2017-01-31 The study of monasteries has come a long way since late the late 19th century The emphasis has shifted away from reconstructing the layouts of monastic buildings to a better understanding of the wider monastic environment The papers in this volume partly based on a conference held in Oxford in 1994 are written by some of today's foremost scholars and reflect the diversity of research now being carried out **Inventing**

Sempringham Katharine Sykes, 2011 This book explores the origins of the role of the Master or head of the order of Sempringham the only monastic order to be founded in medieval England from the foundation of the order to the final drafting of its legislation in the 1230s The book demonstrates that many previous assumptions about the early development of this important role are flawed most notably the standard portrait of Gilbert of Sempringham founder of the order as a stereotypical charismatic leader big on ideas but short on the capacity to provide his followers with effective leadership Series *Vita regularis Ordnungen und Deutungen religiösen Lebens im Mittelalter Abhandlungen Vol 46* Medieval Monasticism C.H. Lawrence, Janet Burton, 2023-09-28 Medieval Monasticism traces the Western Monastic tradition from its fourth century origins in the deserts of Egypt and Syria through the many and varied forms of religious life it assumed during the Middle Ages It explores the relationship between monasteries and the secular world around them For a thousand years the great monastic houses and religious orders were a prominent feature of the social landscape of the West and their leaders figured as much in the political as on the spiritual map of the medieval world In this book many of them together with their supporters and critics are presented to us and speak their minds to us We are shown for instance the controversy between the Benedictines and the reformed monasticism of the twelfth century and the problems that confronted women in religious life A detailed glossary offers readers a helpful vocabulary of the subject This fifth edition has been revised by Janet Burton to include an updated bibliography and an introduction which discusses recent trends in monastic studies including reinterpretations of issues of reform and renewal new scholarship on religious women and interdisciplinary and multidisciplinary approaches This book is essential reading for both students and scholars of the medieval world

Wayward Monks and the Religious Revolution of the Eleventh Century Phyllis G. Jestice, 1997 Focussing on the German empire this book explains the diversification of monasticism during a period of great change in particular a shift towards a greater interest in lay religious life Jestice investigates the changing role of monks in society and examines monastic values in such areas as missionary work public preaching pilgrimage and the Gregorian reform It is based on monastic writings particularly polemics and also uses hagiography **Eleanor of Aquitaine** B. Wheeler, 2016-04-30 Eleanor's patrilineal descent from a lineage already prestigious enough to have produced an empress in the eleventh century gave her the

lordship of Aquitaine But marriage re emphasized her sex which in the medieval scheme of gender power relations relegated her to the position of Lady in relation to her Lordly husbands In this collection essays provide a context for Eleanor s life and further an evolving understanding of Eleanor s multifaceted career A valuable collection on the greatest heiress of the medieval period *The Oxford Dictionary of the Christian Church* Frank Leslie Cross, Elizabeth A. Livingstone, 2005

Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable one volume reference work on all aspects of the Christian Church It contains over 6 000 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject including theology churches and denominations patristic scholarship the bible the church calendar and its organization popes archbishops saints and mystics In this revision innumerable small changes have been made to take into account shifts in scholarly opinion recent developments such as the Church of England s new prayer book Common Worship RC canonizations ecumenical advances and mergers and where possible statistics A number of existing articles have been rewritten to reflect new evidence or understanding for example the Holy Sepulchre entry and there are a few new articles Perhaps most significantly a great number of the bibliographies have been updated Established since its first appearance in 1957 as an essential resource for ordinands clergy and members of religious orders ODCC is an invaluable tool for academics teachers and students of church history and theology as well as for the general reader **Franciscan Organisation in the Mendicant Context** Michael J. P. Robson, Jens

Röhrkasten, 2010 Emanating from the tradition of the Italian hermit communities the Franciscans developed organisational structures already early in their history allowing them to offer pastoral care on a wide scale This process of transition led firstly to constitutional structures as defined in the order s early legislation but it also occurred within relationship networks at different levels in the context of Church and papacy within the different European regions and before the background of the emerging Canon Law The term organisation has been given a wide definition in the articles published in this volume They offer a survey of general issues related to the structuring and running of religious orders as well as a number of case studies Comparisons with other mendicant orders offer an analysis of the issues in a wider context **Monasteries in the**

Landscape Mick Aston, 2009-09-15 The beginnings and development of Monasteries in the Landscape *Monastic*

Archaeology Graham D. Keevill, Teresa Anne Hall, 2001 The Poor and the Perfect Neslihan Şenocak, 2012-04-20 One of the enduring ironies of medieval history is the fact that a group of Italian lay penitents begging in sackcloths led by a man who called himself simple and ignorant turned in a short time into a very popular and respectable order featuring cardinals and university professors among its ranks Within a century of its foundation the Order of Friars Minor could claim hundreds of permanent houses schools and libraries across Europe indeed alongside the Dominicans they attracted the best minds and produced many outstanding scholars who were at the forefront of Western philosophical and religious thought In *The Poor and the Perfect* Neslihan Şenocak provides a grand narrative of this fascinating story in which the quintessential Franciscan

virtue of simplicity gradually lost its place to learning while studying came to be considered an integral part of evangelical perfection Not surprisingly turmoil accompanied this rise of learning in Francis s order enocak shows how a constant emphasis on humility was unable to prevent the creation within the Order of a culture that increasingly saw education as a means to acquire prestige and domination The damage to the diversity and equality among the early Franciscan community proved to be irreparable But the consequences of this transformation went far beyond the Order it contributed to a paradigm shift in the relationship between the clergy and the schools and eventually led to the association of learning with sanctity in the medieval world As enocak demonstrates this episode of Franciscan history is a microhistory of the rise of learning in the West **Papers of the Medieval Europe Brugge Conference 1997: Religion and belief in medieval Europe F.**

Verhaeghe,1997 New SCM Dictionary of Christian Spirituality Philip Sheldrake,2013-05-20 This dictionary attempts to give direct access to the development of Christian Spirituality It is a series of pieces written by experts to provide instant accurate and thought provoking information of high scholarship **Chivalry, Knighthood, and War in the Middle Ages**

Susan Janet Ridyard,1999 **Culture of Christendom** Marc A. Meyer,1993-07-01 The Culture of Christendom brings together original essays by distinguished historians on medieval European history Their range reflects the breadth of Denis Bethell s own interests which though centred on the high medieval church encompassed the culture of the middle ages as a whole **Cistercian Studies Quarterly** ,1998 **The Letters of Peter of Celle** Peter (of Celle, Bishop of Chartres),2001 Peter of Celle was a figure of great authority and influence in twelfth century France His letters offer unique insight into the ideals and values of the monastic world at a critical turning point for western religion This is the first translation of his correspondence and the first complete modern edition **Seeking in Solitude** Bernadette McNary-Zak,2014-06-02 Seeking

in Solitude examines select forms of contemporary Roman Catholic eremitic life and practice in the United States Given the sustained presence of and increased interest in the eremitic life and practice this book responds to the question of the place of the hermit in American Catholicism in a way that neither mystifies nor mythologizes it but rather attempts to understand it

The Monks of Tiron Kathleen Thompson,2014-09-25 Reinterpreting key twelfth century sources this book provides the first comprehensive history of the monastic Order of Tiron in France The Admonitions of St. Francis Robert J. Karris,1999
