THE HIDDEN WOUND

"If the white man has inflicted the wound of racism upon black men, the cost has been that he must receive the mirror image of that wound into himself . . . I want to know, as fully and exactly as I can, what the wound is and how much I am suffering from it. And I want to be cured . . ."

Schuller,2002-01-05 In a society of quick fixes and instant gratification it seems as though true happiness is always just around the next bend But the happiness of the world will never offer the wholeness that makes one content and satisfied Dr Robert Schuller believes the answer to this cycle of disappointment frustration and regret can be found in one of the most famous passages in scripture Jesus Sermon on the Mount *But Now I See* Fred Hobson,1999-04-01 The term conversion narrative usually refers to a particular form of expression that arose in Puritan New England in the seventeenth century In that sense the purely religious the conversion narrative belongs to a rather remote history But in this lucid pathbreaking work Fred Hobson uses the expression in another sense in the realm of the secular to describe a much more recent phenomenon one originating in the American South and marking a new mode of southern self expression not seen until the 1940s Hobson applies the term racial conversion narrative to several autobiographies or works of highly personal social commentary by Lillian Smith James McBride Dabbs Katharine Du Pre Lumpkin Sarah Patton Boyle Will Campbell Larry L King Willie Morris Pat Watters and other southerners books written between the mid 1940s and the late 1970s in which the authors all products of and willing participants in a harsh segregated society confess racial wrongdoings and are converted in varying degrees from racism to something approaching racial enlightenment Indeed the language of many of these works is Hobson points out the language of religious conversion sin guilt blindness seeing the light repentance redemption and so forth Hobson also looks at recent autobiographical volumes by Ellen Douglas Elizabeth Spencer and Rick Bragg to show how the medium persists if in a somewhat different form even at the very end of the twentieth century *But Now I See* is a study both of this particular variety of the southern impulse to self examination and of those who seem to have retained the habit of seeking redemption even if of a secular variety Departing from the old vertical southern religion salvation centered with heaven as its goal these racial converts embrace a horizontal religion which holds that getting right with man is at least as important as getting right with God A refreshingly original treatment of racial change in the South Hobson s provocative work introduces a new subgenre in the field of southern literature Anyone interested in the history and literature of the American South will be fascinated by this searching volume **Belonging** bell hooks,2009-01-01 What does it mean to call a place home Who is allowed to become a member of a community When can we say that we truly belong These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book *Belonging A Culture of Place* Traversing past and present *Belonging*

charts a cyclical journey in which hooks moves from place to place from country to city and back again only to end where she began her old Kentucky home hooks has written provocatively about race gender and class and in this book she turns her attention to focus on issues of land and land ownership Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s she writes about black farmers about black folks who have been committed both in the past and in the present to local food production to being organic and to finding solace in nature Naturally it would be impossible to contemplate these issues without thinking about the politics of race and class Reflecting on the racism that continues to find expression in the world of real estate she writes about segregation in housing and economic racialized zoning In these critical essays hooks finds surprising connections that link of the environment and sustainability to the politics of race and class that reach far beyond Kentucky With characteristic insight and honesty *Belonging* offers a remarkable vision of a world where all people wherever they may call home can live fully and well where everyone can belong

A Gathering of Memories Charles R. Pinches, 2012-02-08 Biblical and personal stories illustrate how memory shapes and sustains us and how the church can teach us to remember

Wendell Berry and the Agrarian Tradition Kimberly K. Smith, 2014-01-17 Farmer and conservationist Wendell Berry has published more than thirty books making his name a household word among environmentalists From his Kentucky farm Berry preaches and practices stewardship of the land as he seeks to defend the value and traditions of farm life in an industrial capitalist society A central figure in the greening of American agrarianism Berry has been an advocate of small farming and traditional values who has tirelessly reminded readers that sustainable agriculture is more than a catchphrase Kimberly Smith now reveals the depth of his ideas and their relevance for American social and political theory Berry's central teaching focuses on the fragility of our natural and social worlds Smith's timely book revisits the problem of living a meaningful life in a world filled with both deadly perils and unimagined possibilities Hers is the first book to explore the implications of this central tenet and other key aspects of Berry's thought as well as his overall contribution to environmental theory and politics Smith shows how the many strands of Berry's thought can be woven together into a coherent agrarian philosophy Focusing on his relationship to the American agrarian and environmental traditions she examines how Berry's ecological agrarianism derives from the concept of grace or living in concert with nature and society Along the way she defends his social theory against accusations of utopianism shows how his moral theory subverts the notion of rugged individualism usually associated with farming and reviews his political theory's argument for decentralized democracy By assessing Berry's reformulation of democratic agrarianism Smith goes beyond any previous critiques of his writing and her exploration of Berry's moral vision shows that such vision is more relevant as America continues to move further away from its agrarian past
