In a spectrum of healing roles ranging from family healers to shamans, diviners, mediums and midwives, women throughout the world pursue strategic ends through healing, manipulate cultural images to effect cures and explain misfortune and shape and are shaped by the social and political contexts in which they work. In an introductory chapter, Carol Shepherd McClain traces the evolution of ideas in medical anthropology and in the anthropology of women that have both constrained and expanded our understanding of the significance of gender to healing, one of the most fundamental and universal of human activities. The contributors include Carol Shepherd McClain, Ruthbeth Finerman, Carolyn Nordstrom, Carole H. Browner, William Wedenoja, Marjery Foz, Barbara Kerewsky, Halpern, Laurel.

by Western educated elites In Swaziland traditional Swazi leaders managed to establish an absolute monarchy instead
qualified by the author as benevolent and people centred a system which they have successfully defended from competing
political forces since the 1970s This book is the first to study the constitutional history of this monarchy It examines its
origins in the colonial era the financial support it received from white settlers and apartheid South Africa and the challenges
it faced from political parties and the judiciary before King Sobhuza II finally consolidated power in 1978 with an auto coup d
