Exhibiting the German Past Peter M. McIsaac, Gabriele Mueller, 2015-09-15 While scholars recognize both museums and films as sites where historical knowledge and cultural memory are created the convergence between their methods of constructing the past has only recently been acknowledged The essays in *Exhibiting the German Past* examine a range of films museums and experiences which blend the two considering how authentic objects and cinematic techniques are increasingly used in similar ways by both visual media and museums This is the first collection to focus on the museum film connection in German language culture and the first to approach the issue using the concept of musealization a process that because it engages the cultural destruction wrought by modernization offers new means of constructing historical knowledge and shaping collective memory within and beyond the museum's walls Featuring a wide range of valuable case studies *Exhibiting the German Past* offers a unique perspective on the developing relationship between museums and visual media

Postmodern Texts and Emotional Audiences Kimberly Chabot Davis, 2007 Analyzes contemporary texts that bond together two seemingly antithetical sensibilities the sentimental and the postmodern This book presents case studies of audience responses to *The Piano* *Kiss of the Spider Woman* and *Northern Exposure* It argues that sentimental postmodernism deepened leftist political engagement Jerusalem in Memory and Eschatology Emma O'Donnell Polyakov, 2025-06-12

Investigating a range of eschatological ideologies this volume explores the connection between notions of sacred space and time in Jewish Christian and Muslim understandings of Jerusalem The recognition of Jerusalem as a holy city both unites and divides Judaism Christianity and Islam While these three religious traditions share a reverence for the same ancient city this veneration leads more often to tension and violence than to commonality and cooperation Each of these religions draws heavily from religious memory and eschatological prophecies and sees Jerusalem as a site of past and future upheaval however the distinctions in their visions imbue Jerusalem with meanings that reinforce conflicting and contested ideologies Offering multiple analyses of religious interpretations of the city and its sacred sites this volume explores these divergent visions of the remembered and anticipated Jerusalem **Unsettling Sexuality** Jeremy Chow, Shelby Johnson, 2025

Unsettling Sexuality brings queer trans and asexual lenses to bear on the long eighteenth century Drawing from Middle Eastern and Asian studies African American studies and Native American and Indigenous studies the authors pioneer intersectional readings of European transatlantic and global eighteenth century archives that unsettle traditional ways of approaching the field to welcome sexuality as something that can resist rigidity Exegetic Homilies (The Fathers of the Church, Volume 46) Saint Basil, 2010-04 No description available **Made in Japan** Toru Mitsui, 2014-07-17 Made in Japan

Disciplining Girls Joe Sutliff Sanders, 2011-12-01 At the heart of some of the most beloved children's novels is a passionate discussion about discipline love and the changing role of girls in the twentieth century Joe Sutliff Sanders traces this debate as it began in the sentimental tales of the mid nineteenth century and continued in the classic orphan girl novels of Louisa May Alcott Frances Hodgson Burnett L M Montgomery and other writers still popular today Domestic novels published between 1850 and 1880 argued that a discipline that emphasized love was the most effective and moral form These were the first best sellers in American fiction and by reimagining discipline as a technique of the heart rather than of the whip they ensured their protagonists a secure if limited claim on power This same ideal was adapted by women authors in the early twentieth century who transformed the sentimental motifs of domestic novels into the orphan girl story made popular in such novels as Anne of Green Gables and Pollyanna Through close readings of nine of the most influential orphan girl novels Sanders provides a seamless historical narrative of American children's literature and gender from 1850 until 1923 He follows his insightful literary analysis with chapters on sympathy and motherhood two themes central to both American and children's literature and concludes with a discussion of contemporary ideas about discipline abuse and gender Disciplining Girls writes an important chapter in the history of American women's and children's literature enriching previous work about the history of discipline in America
